Policy Title Statement of Guiding Principles Code No. 101

It is a major aim of our democratic society that every person is helped to develop himself in ways unique to his own characteristics and that make him a responsible participant. This development is influenced significantly by the home, the community, and the school. The schools are primarily responsible for helping the student to acquire the basic skills to communicate, to think clearly, to make intelligent decisions and to carry them out effectively. The schools can serve these purposes most effectively if they do not attempt to supersede the home or the community in their appropriate areas of responsibility.

Special meetings require a twenty-four (24) hour meeting and agenda notice

Order of Business

The order of business shall be reflected on the agenda. Upon consent of the majority of the members present, the order of business at any meeting may be changed.

No business shall be transacted at any meeting of the Board unless a quorum of the members is present. A majority of the full membership of the Board shall constitute a quorum. A majority of the quorum may pass a resolution.

The chairperson, having determined a quorum is present, will call the meeting to order. General rules of parliamentary procedures are used for every Board meeting. The use of proxy votes shall not be permitted. Voting rights are reserved to those trustees in attendance.

Code No. 210

SECTION 504 HEARING PROCEDURE--PURPOSE AND SCOPE

An impartial hearing procedure is available to students and their parents to resolve differences dealing with educational services available under Section 504 of the Rehabilitation Act (hereinafter "Section 504") when such differences cannot be resolved by means of a less formal procedure. Students and their parents are encouraged to use this school district's Civil Rights Grievance Procedure for resolution of differences whenever possible.

The hearing procedures and procedural safeguards set forth in this policy apply to the identification, evaluation, or educational placement of a student, as set forth in 34 CFR 104.36. A student qualifies for a free appropriate public education, including related services, under Section 504 if he/she has a physical or mental impairment which substantially limits one or more major life activities.

The following definitions will apply to all related hearing matters:

1. "Days" means calendar days;
2. "Parents" means parents or legal guardians;
3. "Placement" means the program concerning the educational placement of the student.

HEARING PROCEDURES

A Section 504 impartial hearing may be requested by the school district or a parent of an affected student on matters directly related to the school district's decisions or actions regarding the following:

1. The identification or eligibility of a student as disabled under Section 504;
2. The evaluation procedures utilized with the student, including a decision not to evaluate a student; or
3. The educational placement and/or related aids and services recommended for or provided to the student, including any change in placement as a result of disciplinary action.

All requests for a hearing under this policy must be submitted in writing addressed to the Superintendent of Schools. The written request for a hearing must contain:

1. The specific nature of the dispute;
2. The specific relief or remedy requested; and
3. Any other information the school district or parents believe is important to understanding the dispute.

The hearing procedure will be presided over and decided by an impartial hearing officer. The Superintendent of Schools, or his/her designee, will select an impartial hearing officer within fifteen (15) days of receipt of the request for a Section 504 hearing. The selected impartial hearing officer will:

1. Be qualified to review school district decisions relating to Section 504;
2. Be impartial and unbiased; and
3. Not be an employee of the school district.

The selected hearing officer, prior to the hearing, will review the school district's actions and notify the parties in writing of the date of the hearing. The parents and the school district will be given at least ten (10) days' notice of the date of the hearing. The notice from the appointed hearing officer will contain:

2. A statement of the legal authority and jurisdiction under which the hearing is being held;
3. A statement of the availability of relevant records for examination;
4. A concise statement of the issues in dispute;
5. A statement setting forth the right of the student's parents or guardian to participate in the hearing procedure; and
6. A statement of the right to be represented by counsel.

All written correspondence will be provided in English and/or interpreted in the parents' primary language.

The hearing will be conducted and a written decision will be mailed by the hearing officer to all parties within forty-five (45) days from the date of the hearing assignment, except that either party to the hearing may request a continuance. The continuance may be granted by the hearing officer upon a showing of good cause. Any continuance(s) granted by the hearing officer will extend the time for rendering a final hearing decision for a period equal to the length of the continuance(s).

The appointed hearing officer will preside at the hearing and will conduct the hearing proceedings in a manner that allows all parties the following rights:

1. The right to be accompanied and advised by counsel and by individuals with special knowledge or training relating to the problems of disabled children;
2. The right to present evidence and oral arguments;
3. The right to an electronic verbatim record of the hearing; and
4. The right to written findings of fact and a decision on the matter.

Parents involved in the hearing process will have the right to:

1. Have the student present at the hearing; and
2. Open the hearing to the public.

In cases where there are language differences, an interpreter will be provided by the school district.

The appointed hearing officer will review all relevant facts presented at the hearing and will determine whether the student's rights have been fully observed. The hearing officer will have the authority to uphold, reverse, or modify the school district's decisions or actions with regard to the:

1. Identification of the student as disabled;
2. Evaluation procedures utilized with the student, including a decision not to evaluate a student; and
3. Educational placement and/or services and accommodations recommended for or provided to the student.

Evaluations will be differentiated for certificated non-instructional employees and pupil personnel certificate holders in a way that aligns with the Charlotte Danielson Framework for Teaching Second Edition to the extent possible.

COMMUNICATION OF RESULTS

A copy of each written evaluation will be submitted to the certified employee within five (5) school days following the formal evaluation. The certified employee will have the opportunity to attach a response to his or her evaluation within twenty-one (21) calendar days.

Certificated personnel evaluations will be considered permanent records and will be maintained in each employee's personnel file. All evaluation records will be kept confidential as required by state and federal law. The rankings of individual certificated personnel evaluations will be reported annually to SDE as required for state and federal reporting purposes.

PERSONNEL ACTIONS

The following actions may result from the evaluation process if determined to be appropriate:

1. A letter of reprimand;
2. Renewal of employment contract;
3. A period of probation;
4. Reassignment;
5. Immediate discharge;
6. Renewal of the employment contract under a continued probationary status; and/or
7. Non-renewal of employment contract.

A letter of reprimand may be issued at any time, with or without a formal evaluation. Any recommendation to place an employee on a period of probation, discharge the employee immediately, discharge the employee upon termination of the current contract, or reemploy the employee at the end of the contract term under a continued probationary status contract must be approved by the board of trustees.

Nothing in this policy shall be read to impact the district's right to immediately, without an evaluation or period of probation, discipline an employee up to and including immediate discharge for reasons other than unsatisfactory performance. All actions will comply with requirements and procedures established by State law.

APPEAL

When disagreement exists regarding the results of the evaluation, the affected employee is entitled to attach a rebuttal to his or her evaluation.

An employee who is placed on probation, immediately discharged, or not reemployed is entitled to full due process rights as provided by Idaho Code Sections 33-513 through 33-515.

MONITORING AND EVALUATION

The superintendent or designee is responsible for ensuring that the evaluation process is in compliance with state requirements and implemented consistently. The superintendent or designee will continually review and develop the district's personnel evaluation system taking into account input from trustees, administrators, teachers, and parents where appropriate. Any changes to the district's evaluation model will be approved by the board of trustees and submitted to the SDE for approval.

PROFESSIONAL DEVELOPMENT AND TRAINING

The district will provide ongoing training for evaluators/administrators and teachers regarding the evaluation standards, tools, and processes. All individuals responsible for evaluating certificated instructional staff and pupil personnel performance will receive training in conducting observations and evaluating effective teacher performance.

FUNDING

Funding will be allotted as needed for ongoing training and professional development.

COLLECTING AND USING DATA

Aggregate data may be considered part of this district's and its individual schools' needs assessment in determining professional development offerings. The district will report the rankings of individual certificated personnel evaluations to the SDE annually for state and federal reporting purposes.

INDIVIDUALIZED TEACHER EVALUATION RATING SYSTEM

Evaluations will be used to identify employee proficiency and record professional growth over time. The individualized teacher rating system will have a minimum of three (3) rankings used to differentiate performance of teachers and pupil personnel certificate holders including:

- a. Unsatisfactory = 1
- b. Basic = 2
- c. Proficient = 3
- d. Distinguished = 4 (optional under State law)

All teachers are urged to keep acceptable standards of ethics in mind at all times. The Professional Standards Commission Code of Ethics is an excellent guide for professional conduct. Willful violation of any professional code or standard of ethics or conduct adopted by the State Board of Education is grounds for revocation of a teacher's certificate.

A valuable teacher not only gives good instructional performance, but also gets along well with colleagues, administrators, parents and pupils.

Code No: 403

A complaint is an assertion by an employee that there has been a violation, misinterpretation, or inequitable application of district policies, the negotiated agreement, regulations and procedures, existing laws, or other actions that adversely and directly affect the employee and/or his/her work.

It is the intent of this procedure that employee complaints will be identified and corrected at the earliest possible time, and at the lowest level of supervision. The employee has ten (10) working days to file a complaint after the perceived violation, misinterpretation, or inequitable application of district policies, the negotiated agreement, regulations and procedures, existing laws, or other actions that adversely and directly affect the employee and/or his/her work.

Complaint processing should be viewed as a positive and constructive effort which seeks to establish the facts upon which the complaint is based and to come to a fair conclusion. Employees will not be discriminated against nor will reprisal be attempted against an employee because he/she filed a complaint.

Procedures

Complaints will be processed according to the step-by-step procedures outlined below:

 - c. (If applicable) After receiving the decision at Step b, the complainant may appeal the decision, in writing, to the appropriate director, administrator, or administrative assistant.
 - d. The administrator/supervisor will, within five (5) workdays of receipt of the appeal, investigate and render a decision, in writing, to the Complainant, the immediate supervisor, and to the person or persons originally involved in the complaint.
2. District – Level 2
 - a. After receiving the decision at Level one (1), the complainant may appeal the decision, in writing, to the superintendent, or official designee.
 - b. The superintendent, or official designee, will, within ten (10) workdays of receipt of the appeal, investigate and render a decision, in writing, to the complainant, the administrator, or immediate supervisor, and to the person or persons originally involved in the complaint.
3. Advisory Committee Review – Level Three

- a. After receiving the decision at Level Two (2), the complainant may appeal the decision, in writing, to the superintendent or official designee, requesting a District Grievance Advisory Committee review. (The District Grievance Advisory Committee shall consist of four (4) district employees: 1) the superintendent, 2) one member selected by the aggrieved employee, 3) one member selected by the person the grievance is being filed against, 4) and the fourth member being selected by the original three committee members.) The superintendent will be an ex-officio non-voting member of the committee. If the superintendent is party to the original complaint, a suitable replacement will be determined by committee members.
- b. The District Grievance Advisory Committee, will, within ten (10) work days of selection, investigate and render a decision, in writing, to the complainant, and to the person or persons originally involved in the complaint.

4. Governing Board – Level Four

- a. After receiving the decision at Level Three (3), the complainant or the person or persons originally involved in the complaint may appeal the decision, in writing, to the Board of Trustees.
- b. The Board will schedule the matter for a review within twenty (20) work days following receipt of the appeal. The complainant shall have the right to present such witnesses and evidence as he/she deems necessary to develop facts pertinent to the grievance at the review.

Policy Title: Sick Leave Bank

Code No: 408.6

- A. Each professional employee of this district may participate in the sick leave bank. To participate, each employee shall contribute a prescribed number of his/her earned sick leave days as determined by the sick leave bank committee. Deposits to the sick leave bank may be made from September 1st to October 15th. Deposits may be called for during the year if the bank falls below 20 days. Sick leave days thus contributed shall be deducted from the individual's sick leave entitlement.
- B. The contributed sick leave days shall form a fund of sick leave days that will be available to all eligible participating professional employees upon recommendations of the sick leave bank committee for the purpose of alleviating the hardship caused by absence from work necessitated by extended or recurring physical disability resulting from illness or injury extending beyond the professional employee's accumulated sick leave.
- C. Application for use of the sick leave bank days from the bank shall be submitted to the sick leave bank committee for its recommendation. The committee shall meet within 72 hours of the request and determine the eligibility of the employee. If the committee deems necessary, it shall require proof of illness at the time of application and, from time to time, after a grant has been made.
- D. In order for a professional employee to be eligible to apply for sick leave benefits from the Sick Leave Bank, the employee must first: (1) be a contributor to the bank, (2) have used all of his/her paid personal leave days, and (3) have used all of his/her sick leave or if the employee has more than 50 days of accumulated leave and has used 20 of those days; the committee may grant four (4) days for every two (2) of their own that is used.
- E. For the initial year of operation, each participating employee shall contribute one (1) day of his/her accumulated sick leave days to the sick leave bank. Each subsequent year of the bank's operation, the sick leave bank committee shall determine the number of sick leave days each participant must contribute in order to keep the bank solvent. The number of accumulated sick leave days an employee may contribute to the bank shall be limited to 100% of the employee's sick leave days.
- F. The maximum number of days that can be granted in any one fiscal year will be ninety (90) days. In no case will the granting of leave cause an employee to receive more than his/her annual salary for that year.
- G. Bank grants to individual employees will not be carried over from one fiscal year to another; all such grants will end at the termination of the school year. If a professional employee does not use all of the days granted by the bank, the unused sick leave days will be returned to the bank.
- H. The Sick Leave Bank Committee shall consist of two (2) members appointed by the representative teacher organization, and two (2) members appointed by the Board,

excluding the Superintendent. In case of a tie vote on a request, the Superintendent will cast the deciding vote. The committee members shall develop and distribute rules and procedures for the orderly administration of the bank not inconsistent with the terms of this agreement. The committee shall be responsible for reporting to the district's accounting office the names of contributors and the number of days contributed. It shall report all days granted by the bank and all other information necessary for the employee's records.

Policy Title: Drug/Alcohol Testing for Bus Drivers

Code No.: 414.4a

This district has an interest in establishing a work environment free from the influence of drugs and alcohol for the benefit of its drivers, students and the public. This policy is adopted to ensure that the district's transportation drivers are free from the effects of drugs and alcohol while at work or on district business. Questions pertaining to this policy will be directed to the superintendent or his or her designee.

DEFINITIONS

Alcohol: The intoxicating agent in beverage alcohol, ethyl alcohol, or other low molecular weight alcohols, including methyl and isopropyl alcohol.

Alcohol use: The consumption of any beverage, mixture, or preparation, including any medication containing alcohol.

Alcohol screening test: An analytical procedure to determine whether a driver may have a prohibited concentration of alcohol in his or her system. In controlled substance testing, it means an immunoassay screen to eliminate "negative" urine specimens from further consideration.

Confirmation test: A second test, following a screening test with a result of point zero two (0.02) or greater, that provides quantitative data of alcohol concentration. For controlled substances testing, confirmation test means a second analytical procedure to identify the presence of a specific drug or metabolite which is independent of the screen test and which uses a different technique and chemical principle from that of the screen test in order to ensure reliability and accuracy. Gas chromatography/mass spectrometry (GC/MS) is the only authorized confirmation method for cocaine, marijuana, opiates, amphetamines, and phencyclidine.

Driver: Any person operating a school bus owned or operated by the district. This includes full-time, regularly employed drivers; casual, intermittent or occasional drivers; leased drivers and independent owner-operator contractors.

Safety-sensitive function: Any activity by a bus driver during any period in which he/she is actually performing, ready to perform, or immediately available to perform bus driving duties.

Refusal to submit to a test means that a driver:

1. Fails to provide adequate breath for testing without a valid medical explanation;
2. Fails to provide adequate urine without a valid medical explanation;
3. Engages in conduct that clearly obstructs the testing process.

PROHIBITIONS

A bus driver for this district will not:

1. Report to duty or remain on duty requiring the performance of safety-sensitive functions while having an alcohol concentration of point zero four (0.04) or greater.
2. Be on duty or operate a school bus while in possession of alcohol.
3. Use alcohol while performing safety-sensitive functions.
4. Perform safety-sensitive functions within four (4) hours after using alcohol.
5. Use alcohol for eight (8) hours following an accident, or until he/she undergoes a post-accident alcohol test, whichever occurs first.
6. Refuse to submit to a post-accident alcohol or controlled substances test, a random alcohol or controlled substances test, a reasonable suspicion alcohol or controlled substances test, or a follow-up alcohol or controlled substances test.
7. Report for duty or remain on duty requiring the performance of safety-sensitive functions when the driver uses any controlled substances, except when the use is pursuant to the instructions of a physician who has advised the driver that the substance does not adversely affect the driver's ability to safely operate a school bus.
8. Report for duty, remain on duty, or perform a safety-sensitive function if he/she tests positive for controlled substances.

REQUIRED TESTING

Pre-employment Testing

Prior to performing any safety-sensitive functions, a bus driver will undergo testing for alcohol and controlled substances. The test results from the pre-employment testing must show an alcohol concentration of less than point zero four (0.04), and a controlled substances test result indicating a verified negative result before a bus driver will be allowed to operate a school bus.

Baseline Testing

This district requires all bus drivers to submit to testing for the presence of alcohol and/or controlled substances within thirty (30) days after the effective date of this policy.

Post-accident Testing

As soon as practicable following an accident involving a school bus, the bus driver operating the bus involved in the accident will be tested for alcohol and controlled substances if:

1. The accident involved the loss of human life;
2. Personal injury to another person required medical treatment away from the scene of the accident;
3. The bus driver incurred an injury;
4. Damage to property owned by the school district or a third party is estimated to exceed one thousand dollars (\$1,000); or
5. The bus driver received a citation for a moving traffic violation arising from the accident.

A bus driver involved in a work-related accident requiring medical attention will inform his or her supervisor as soon as possible after the accident. Any needed alcohol or controlled substances tests may be promptly conducted in conjunction with his or her medical treatment. A bus driver who is injured in a work-related accident and is unable to provide a specimen for testing will authorize the release of relevant hospital reports or other documentation indicating the presence, or lack of, alcohol or controlled substances at the time of the accident.

A bus driver subject to post-accident testing will remain readily available for such testing or may be deemed by the school district to have refused to submit to testing.

A post-accident test for alcohol will be administered within two (2) hours following the accident if possible. No test for alcohol will be administered after eight (8) hours following the accident. A post-accident controlled substance test will be administered within thirty-two (32) hours following the accident.

If it is determined by the district's administration that a bus driver's accident was caused solely by unsafe conditions or by the actions of a third party, the school district reserves the right to waive post-accident testing unless the accident involved the loss of human life or the bus driver received a citation for a moving traffic violation arising from the accident.

Random Testing

A random test is a test that is unannounced and results in every bus driver having an equal chance of being selected for testing at any given time. The random selection method used by this district will consist of placing all drivers' names into a hat and a name will be pulled out at intervals chosen by the superintendent or his or her designee. Such random testing may result in a driver being tested more than once a year.

The minimum annual percentage rate for random alcohol testing will be twenty-five (25) percent of the average number of bus driver positions. The minimum annual percentage rate for random controlled substances testing will be fifty (50) percent of the average number of bus driver

positions. The minimum annual percentage rates set forth may change based upon the Federal Highway Administration's yearly minimum annual percentage rates.

Each bus driver notified that he/she has been selected for random alcohol and/or controlled substances testing will immediately go to the testing site; provided, however, that if the bus driver is performing a safety-sensitive function at the time of the notification, the driver will proceed to the testing site as soon as possible.

A bus driver will only be tested for alcohol while the driver is performing safety-sensitive functions, just before the bus driver is to perform safety-sensitive functions, or just after the driver has ceased performing such functions.

Reasonable Suspicion Testing

A bus driver will be required to submit to an alcohol test and/or a controlled substances test when the district has reasonable suspicion to believe that the bus driver has violated this policy. The district's determination that reasonable suspicion exists to require the bus driver to undergo an alcohol and/or controlled substances test will be based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech or body odors of the bus driver.

Such observations will be made by a supervisor or district official having received a minimum of sixty (60) minutes of training on alcohol misuse and a minimum of sixty (60) minutes of training on controlled substance use. Said training shall include the physical, behavioral, speech, and performance indicators of probable alcohol misuse and use of controlled substances. The individual making the determination that reasonable suspicion exists will not conduct such tests.

A reasonable suspicion alcohol test is authorized only if the observations are made during, just preceding, or just after the period of the workday that the bus driver is required to be in compliance with this policy. No adverse employment action will be taken against a driver based solely on the driver's behavior and appearance, with respect to alcohol use, in the absence of an alcohol test.

DRUG TESTING PROCEDURES

The drug testing procedures will include, but not be limited to, the following controlled substances:

1. Cocaine;
2. Marijuana;
3. Opiates;
4. Amphetamines; and
5. Phencyclidine.

Urine samples collected under this policy will not be used to conduct any other analysis or test.

The collection site person is responsible for maintaining the integrity of the specimen collection and transfer process, and will carefully ensure the modesty and privacy of the driver, and will avoid any conduct or remarks that might be construed as accusatorial or otherwise offensive or inappropriate.

If, during the specimen collection process, the collection site person detects an effort by the driver to adulterate or substitute a specimen, a second specimen will be requested. If a second specimen is provided both will be tested. If the driver refuses to provide a second specimen the district will be so informed. Such conduct will be considered equivalent to testing positive and will result in an applicant not being offered employment with the district. A bus driver will have his or her employment with this district terminated in such a circumstance.

The entity or person(s) designated by this district to perform alcohol testing procedures and/or the specimen collection and analysis will strictly follow the Department of Transportation's rules, provide the necessary qualified personnel, protect the integrity of the testing processes, safeguard the validity of the test results, maintain the strict confidentiality of the testing and test results with disclosure only to the employer and the employee, and ensure that those results are attributed to the correct driver.

RETENTION OF RECORDS

The following records will be retained for five (5) years:

1. Records of driver alcohol test results indicating an alcohol concentration of point zero two (0.02) or greater;
2. Records of driver verified positive controlled substances test results;
3. Documentation of refusals to take required alcohol and/or controlled substances tests;
4. Calibration documentation;
5. Driver evaluation and referrals; and
6. A copy of each annual calendar year summary.

The following records will be retained for two (2) years:

1. Records related to the alcohol and controlled substances collection process; and
2. All training records.

The following records will be retained for one (1) year:

1. Records of negative and canceled controlled substances test results; and
2. Alcohol test results with a concentration of less than point zero two (0.02).

CONFIDENTIALITY OF RECORDS

This district will not release bus driver information compiled pursuant to this policy except in the following circumstances:

1. A bus driver, upon written request, is entitled to receive copies of any records pertaining to the driver's use of alcohol or controlled substances, including records of test results.
2. Results of all bus driver alcohol and/or controlled substances testing will be provided at the request of the Secretary of Transportation (DOT), any DOT agency, or any State or local officials with regulatory authority over the district or any of its bus drivers.
3. Records may be used in a lawsuit, grievance, worker's compensation claim, unemployment compensation, or other proceeding initiated by or on behalf of a bus driver, and arising from the results of an alcohol and/or controlled substance test administered under this policy.
4. Records will be made available to a subsequent employer or other identified person upon receipt of a written request from a bus driver. The release of information is permitted only in accordance with the terms of an employee's consent.

NOTIFICATION OF TEST RESULTS

This district will notify a bus driver of the results of a pre-employment controlled substances test if the bus driver requests the results within sixty (60) calendar days of being notified of the disposition of the employment application.

This district will notify a bus driver of the results of random, reasonable suspicion, and post-accident tests for controlled substances if the test results are verified positive. The employee will also be informed which controlled substance or substances were verified as positive.

In those instances where the medical review officer has been unable to contact the driver to discuss the results of a controlled substances test, the superintendent or designee will make reasonable efforts to contact and discuss the test results with the individual, regardless of employment status. The superintendent or designee will request that the individual contact the medical review officer within twenty-four (24) hours, and will also inform the medical review officer of such notification.

Each driver who has engaged in conduct which violates this policy will be advised of the resources available to the driver in evaluating and resolving the problems associated with the misuse of alcohol and use of controlled substances, including the names, addresses, and telephone numbers of substance abuse professionals and counseling and treatment programs.

Each driver who engages in conduct which violates this policy will be evaluated by a substance abuse professional, at the driver's own expense, who will determine what assistance, if any, the employee needs in resolving problems associated with alcohol misuse and controlled substances use.

SELF-REFERRAL

All bus drivers employed by this district who may consider themselves alcohol or controlled substances dependent will be encouraged to obtain an evaluation by a licensed substance abuse professional and seek treatment, if so recommended. This district will provide informational assistance in locating professional substance abuse counseling to any driver requesting such assistance.

Bus drivers undergoing alcohol or controlled substances rehabilitation will do so at their own expense (other than those expenses covered by the district's insurance program), on their own time, or during an unpaid leave of absence approved by the district prior to taking the leave.

Any bus driver who demonstrates successful progress or completion of a recommended course of treatment may return to work only after passing an alcohol and/or controlled substances test at the driver's expense. Any such driver will be expected to comply with all aspects of this policy.

POLICY VIOLATION CONSEQUENCES

Any individual who tests positive in the pre-employment test for alcohol (point zero four (0.04) or higher) or controlled substances will not be offered employment with this district. Any bus driver who tests positive for alcohol (point zero four (0.04) or higher) or controlled substances will have his or her employment with this district terminated.

No driver tested under this policy who is found to have an alcohol concentration of point zero two (0.02) or greater, but less than point zero four (0.04), will perform or continue to perform safety-sensitive functions for this district, until the start of the driver's next regularly scheduled duty period, but not less than twenty-four (24) hours following administration of the test. No action will be taken under this policy against a driver based solely on test results showing an alcohol concentration less than point zero four (0.04).

The possession, use, purchase, or distribution of alcohol or controlled substances by a bus driver in a district vehicle, on district property, or during work hours is prohibited. Any bus driver who violates this prohibition will have his or her employment with this district terminated.

A bus driver's off-the-job illegal use, manufacture, purchases, possession, or distribution of controlled substances, drug paraphernalia, or illegal use of alcohol resulting in criminal charges against the driver will result in the driver being requested to submit to alcohol and/or controlled substances testing. If the tests are positive, the driver will fall within the provisions of this policy. If a bus driver is convicted of the above-stated offense, the driver will have his or her employment with this district terminated.

Any driver who refuses to be tested, or fails to release or provide information as required by this policy, will have his or her employment with this district terminated.

CONCLUSION

The terms of this Transportation Workplace Alcohol and Drug Testing Program are intended to achieve a work environment where bus drivers are free from the effects of alcohol and/or controlled substances. The provisions of this policy may be revised as necessary. This district anticipates that by implementing the provisions of this policy, its drivers will enjoy the benefits of working in a safer and more productive environment.

Further information is available from the superintendent or designee concerning the effects of alcohol and controlled substances use on an individual's health, work, and personal life; signs and symptoms of an alcohol or a controlled substances problem of a driver or a coworker; and available methods of intervening when an alcohol or a controlled substances problem is suspected, including confrontation, referral to any employee assistance program, and/or referral to management.

Policy Title: Sick Leave Bank for Classified Employees Code No. 414.10

- A. Each classified employee of this district may participate in the Classified Employee's Sick Leave Bank. To participate, each employee shall contribute a proscribed number of his/her earned sick leave days as determined by the Classified Employee's Sick Leave Bank Committee. Deposits to the Classified Employee's Sick Leave Bank may be made from September 1st to October 15th. Deposits may be called for during the year if the bank falls below 20 days. Sick leave days thus contributed shall be deducted from the individual's sick leave entitlement.
- B. The contributed sick leave days shall form a fund of sick leave days that will be available to all eligible participating classified employees upon recommendations of the Classified Employee's Sick Leave Bank Committee for the purpose of alleviating the hardship caused by absence from work necessitated by extended or recurring physical disability resulting from illness or injury extending beyond the non-instructional employee's accumulated sick leave.
- C. Application for use of the Classified Sick Leave Bank days from the bank shall be submitted to the Classified Sick Leave Bank committee for its recommendation. The committee shall meet within 72 hours of the request and determine the eligibility of the employee. If the committee deems necessary, it shall require proof of illness at the time of application and, from time to time, after a grant has been made.
- D. In order for a classified employee to be eligible to apply for sick leave benefits from the Classified Sick Leave Bank, the employee must first: (1) be a contributor to the bank; **(2) have used all of his/her sick leave days, personal leave day and vacation days**; (3) been employed for at least one full year, and (4) have been absent from work due to illness or accident.
- E. For the initial year of operations, each participating employee shall contribute one (1) day of his/her accumulated sick leave days to the Sick Leave Bank. Each subsequent year of the Bank's operation, the Classified Sick Leave Bank Committee shall determine the number of sick leave days each participant must contribute in order to keep the bank solvent. Other Sick Leave Banks within the district may contribute to this bank. The number of accumulated sick leave days an employee may contribute to the bank shall be limited to 100% of that employee's sick leave days.
- F. The maximum number of days that can be granted in any one fiscal year will be the remaining number of days an employee is scheduled to work under his/her current contract. In no case will the granting of leave cause an employee to receive more than his/her annual salary for that year.
- G. Bank grants to individual employees will not be carried over from one fiscal year to another; all such grants will end at the termination of the school year. If a classified employee does not use all the days granted by the bank, the unused sick leave days will be returned to the Bank.

- H. The Classified Sick Leave Bank Committee shall consist of **three (3) members (one from each school)** appointed by the non-instructional employees at a group meeting, and **three (3) members** (two (2) board members and one (1) administrator) appointed by the Board, excluding the superintendent. In case of a tie vote on a request, the superintendent will cast the deciding vote. The committee members shall develop and distribute rules and procedures for the orderly administration of the bank not inconsistent with the terms of this agreement. The committee shall be responsible for reporting to the district's accounting office the names of contributors and the number of days contributed. It shall report all days granted by the bank and all other information necessary for the employee's record.

Policy Title Sick Leave for Non-Instructional Personnel Code No. 414.11

In accordance with Idaho Code 33-1216, non-instructional employees are entitled to sick leave with full pay in the amount of one day per month of service, or major portion thereof, as projected for the employment year. Accumulation of sick leave days is unlimited, so long as the employee remains continuously employed with the district.

Employees working less than full-time shall be entitled to sick leave proportional to the FTE. Casual employees, such as substitute teachers, who are not regularly scheduled to work but are employed on an "as-needed" basis, will not receive sick leave.

It is the intent of the board that employees will use sick leave only for illness or injury to the employee; medical provider appointments; illness of the employee's immediate family (spouse, children, siblings, parents, grandparents, grandchildren, and the same members of the spouse's family).

In the event an employee does not have available sick leave and is requesting time off for the above reasons, the employee may use personal leave, accrued compensatory time, or leave without pay.

The district shall have the right, at the superintendent's discretion, to require that the employee provide proof of illness or injury adequate to protect the district against malingering and false claims.

HOURS OF WORK AND OVERTIME

The normal workweek and hours may differ within the District. From time to time, circumstances may require that the employee work in excess of forty (40) hours during the workweek. Each non-exempt employee will be paid time and one-half (1 ½) the regular rate for hours worked in excess of forty (40) hours per week. **The supervisor must approve overtime in advance. Unauthorized overtime may be subject to disciplinary action up to and including termination.**

According to the federal Fair Labor Standards Act (FSLA), only actual hours worked are computed for purposes of determining hours worked for overtime calculation. It is not necessary to count vacation time, sick time, holiday time or any other time for which you are compensated but do not actually perform work when computing hours worked in a work week.

The supervisor must do any change in an employee's daily schedule.

Full-time non-instructional employees are given two days of “personal leave” per year. Employees working less than full-time shall be entitled to personal leave proportional to their FTE. Personal leave is defined as leave to attend to matters of a personal nature.

Policy Title Alcohol and Drug Free Policy Code No. 415

Purpose: The Fruitland School District No. 373 recognizes that the use of illegal substances is a very serious problem with physical, emotional, social and legal implications. The primary concern is the effect of illegal alcohol and drug abuse, including tobacco.

Policy: It is the policy of the Fruitland School District that the unlawful manufacture, distribution, dispersing, possession or use of a controlled substance or alcohol is prohibited in the workplace. If a violation has taken place, disciplinary action against the offending employee or student will follow. Appropriate action may include up to and including termination, and/or student dismissal.

Decisions associated with retention of an offending employee or student would include satisfactory participation in an alcohol or drug abuse assistance or rehabilitation program approved for such purposes by a federal, state or local health, law enforcement, or other appropriate agency.

Policy Title: Family and Medical Leave Act of 1993 Code No. 417

All eligible employees of this district may take leave as provided by the FMLA. The FMLA entitles eligible employees to take up to twelve (12) weeks of unpaid, job-protected leave during a twelve-month (12-month) period for specified family and medical reasons.

An eligible employee is defined as an individual who:

1. Has been employed by the district for at least twelve (12) months; and
2. Has been employed for at least one thousand two hundred fifty (1,250) hours of service during the twelve-month (12-month) period immediately preceding the commencement of the leave; and
3. Is employed at a worksite where fifty (50) or more employees are employed by the district within seventy-five (75) miles of the worksite.
4. For the purpose of determining eligibility for FMLA, the Fruitland School District will calculate the "twelve-month (12 month) period immediately preceding the commencement of the leave" as the calendar year.

BASIS FOR TAKING FMLA

FMLA leave may be taken by an employee for any of the following reasons:

- To care for the employee's child after birth or placement of a child with the employee for adoption or foster care;
 - If both spouses work for the district, they are jointly entitled to a combined total of twelve (12) weeks of unpaid leave for the birth or adoption of a child or children;
- To provide care for the employee's spouse, child, or parent, who has a serious health condition; or
- For a serious health condition that makes the employee unable to perform the employee's job.

HEALTH INSURANCE

The district shall maintain the same group health insurance during an employee's FMLA leave. However, if an employee fails to return to work at the end of the twelve (12)-week period of leave for reasons other than a continuation of the serious health condition, a family member's serious health condition, or another reason beyond the control of the employee, the district may recover those premiums under certain circumstances. If the employee is responsible for payment of a portion of the health insurance premium prior to the FMLA leave, that financial responsibility shall continue during the period of FMLA leave.

DEFINITIONS

“Child (son or daughter)” includes biological, adopted, or foster child, stepchild, legal ward, or a child of a person standing *in loco parentis* (in place of parent). The child must be either under 18 years of age or, it over 18, incapable of self-care because of a mental or physical disability.

“Parent” includes a biological parent (not parent-in-law) or someone who stood *in loco parentis* when the employee was a child.

“Spouse” is a husband or wife, including a common-law husband or wife, but does not include a “significant other” or “domestic partner.”

“Serious health condition” is a condition that involves either in-patient care or “continued treatment” by a health care provider.

“Continued treatment” includes:

1. Any three (3)-day period of incapacity that involves: (a) at least two (2) visits to a health care provider; or (b) a regimen of continued treatment under a health care provider’s supervision;
2. Any period of incapacity due to pregnancy (including severe morning sickness), even if no treatment is obtained for prenatal care;
3. Any period of incapacity due to a chronic medical condition, such as asthma, diabetes, or epilepsy, even if no treatment is obtained;
4. Any period of absence to receive multiple treatments for restorative surgery or a serious illness such as cancer, severe arthritis, or kidney disease; or
5. Any permanent or long-term incapacity (e.g., Alzheimer’s or severe stroke), even if no treatment is being provided.

Any accrued paid leave used by an employee for absences which qualify for FMLA coverage will be counted as FMLA leave, unless the district determines otherwise.

The district will comply with the mandates of FMLA, including any special rules which may apply regarding the taking of intermittent leave or leave on a reduced leave schedule, or leave near the end of an academic term by instructional employees. Exhibits A and B set forth employees’ rights under this Act.

This district will post a notice approved by the Secretary of Labor explaining the rights and responsibilities under FMLA at the district offices.

Under certain circumstances, sexual harassment may constitute sexual abuse under Idaho Child Welfare Code. In such situations, the Fruitland School District shall comply with the Idaho Statute concerning reporting suspected child abuse.

X. DISCIPLINE

Any school district action taken pursuant to this policy will be consistent with requirements of all applicable policies of the Fruitland School District. Policy Title Crisis Management Policy Code No. 421

Through team intervention we feel the district can help staff maintain professionalism (team members supporting one another), help if litigation should develop and provide better safety for all involved. Through implementation of a district-wide crisis intervention program, we will begin to effectively deal with crisis situations in a confident, competent, and sensitive manner.

A crisis involves a critical trauma that has (or will) disrupt the normal process of the school day. A crisis situation is an individualized matter, and the disruption of the school will depend on a variety of factors. The loss may be dealt with easily or it may be more difficult. In either case, we must be prepared to handle these situations, whether large or small.

The crisis intervention principle is to do things "with the troubled individual" rather than "to" or "for" him/her. With that idea in mind, we can then look at some basic counseling principles and techniques to foster healthy feelings and attitudes concerning grief and loss. When used in conjunction with a detailed district-wide plan for action, these techniques and principles can be a positive beginning in an effective crisis management program.

The Crisis Team will consist of the following members:

- A. ADMINISTRATOR/DESIGNEE: making sure crisis procedures are in operation and functioning effectively.
- B. TEACHER(S): being alert to possible student problems and referring these problems to the proper resources.
- C. COUNSELORS: working with the team to initiate strategies in the management of the crisis.
- D. NURSE: acting as a consultant, and coordinating with faculty, parents, physician, and students regarding the health and welfare of the student population.
- E. LAW ENFORCEMENT REPRESENTATIVE: aiding with the legal aspects of crisis management.
- F. SCHOOL SECRETARY(IES): being alert to possible student problems and referring these to the proper resources.
- G. PARENTS: become a part of the crisis management team when deciding the proper direction for the best treatment of the child. In case of death, the school coordinates with the parents regarding funeral attendance and school programs.

- H. MINISTERIAL COUNCIL AND CHURCH REPRESENTATIVES: work with team to initiate strategies in the management of the crisis.

Crisis team members will meet annually, in order to review policy and receive any training necessary.

The following suggested procedures are intended to serve as guidelines to the team in dealing with tragic events that affect the total functioning of the school population (i.e. accidents, deaths, or disasters). The team may also need assistance in dealing with threats to individuals health and/or safety (i.e. suicide threats or gestures, threats against students or faculty members, out of control behaviors, etc.).

- A. Ancillary team members are notified to report to the school to join other team members in dealing with the crisis.
1. The team members from each school will facilitate notification of staff members and faculty during a crisis.
 2. Each team member will be responsible to call their assigned faculty or staff members.
- B. The team meets with the principal acting as the team leader who informs the team of the known facts and helps formulate a plan of action. Duties are assigned to team members and communication procedures are established.

Policy Title: Retention of District Records

Code No. 429

In compliance with Idaho Code, the Board of Trustees establishes the following guidelines to provide administrative direction pertaining to the retention and/or disposal of District records. This schedule likewise identifies the anticipated physical location of where such records may be kept or maintained by the District, in addition to the possible document retention of all categories of records on the school's servers and computer systems.

The District's Public Records Coordinator, in conjunction with the Superintendent, Board Clerk, or designee, is responsible for the maintenance, safeguarding and destruction of the District's records. Performance of such duties shall be in cooperation with the District's Business Office, Directors of Maintenance and Transportation, Technology Coordinator, the Principals at the school's buildings and other administrative personnel employed by the District. However, each school employee is likewise responsible for having knowledge of this policy and the requirement to safeguard the District's records, electronic or otherwise, consistent with the chart below.

The District's Public Records Coordinator shall work in conjunction with the District's Technology department to assure that the school's staff is aware of the routine destruction of electronic District records, including emails, such that they are able to assure that the District's public records are retained consistent with this schedule, regardless of whether they are maintained in a hard copy or an electronic copy. In such a process, the District's employees need to retain District records included on the schedule below, particularly student educational records, personnel records, and investigative records, in a format that is not part of the District's routine electronic records destruction and/or notify the technology personnel of the District that a particular document is not to be destroyed as part of the routine destruction of electronic records.

Unless otherwise prohibited by applicable law, all District records may be maintained electronically and/or in hard physical copy.

Method of Destroying Official Records

The District's official records, and any copy thereof that may be deemed to be confidential and/or not intended to be disseminated to the public, will be shredded before disposal.

Destruction of Electronic Mail/e-mail

The District will store electronic mail/e-mails for a maximum period of sixty (60) days. All email will be automatically deleted from the District's system at the end of this retention period. It is the responsibility of every district employee to assure that District documents that need to be retained for a longer period of time due to federal law, state law or the provisions of this policy are retained accordingly and in a different format than electronic mail. An employee's failure to retain District documents accordingly could serve as a basis for discipline, up to and including possible termination.

Suspending of Destroying Official Records

The District will immediately cease the destruction of all relevant records, including electronic records, even if destruction is authorized by an approved Retention Schedule, for the following reasons:

1. If the District receives a Freedom of Information Act (FOIA) request;
2. If the District believes that an investigation or litigation is imminent; or
3. If the District is notified that an investigation or litigation has commenced.

The Public Records Coordinator, Superintendent, and Board Clerk are responsible for carrying out this policy.

If relevant records exist in electronic formats (such as email, digital images, word processed documents, databases, backup tapes, etc.) the District’s Administrative personnel shall notify its information technology staff to cease the destruction of records relating to the subject matter of the suit/potential suit or investigation. Failure to cease the destruction of relevant records could result in penalties against the District.

The following will be used as a guide for the disposal of district records:

Policy Title: Student Entrance, Placement and Transfer Entrance Code No. 501

All children wishing to enroll in kindergarten must be five years old on or before September 1st of the school year in which the child enrolls. All children wishing to enroll in first grade must be six years old on or before September 1st of the school year in which the child enrolls. Any child of the age of five (5) years who has completed a private or public out-of-state kindergarten for the required 450 hours but has not reached the age and date requirements set forth above, shall be allowed to enter the first grade.

For resident children with disabilities who qualify for special education and related services under Public Law 94-142 and subsequent amendments thereto, and applicable state and federal regulations, "school age" shall begin at the age of three and shall continue through the semester of school in which the student attains the age of twenty-one (21) years.

Immunization records (or an appropriate waiver) and birth certificate (subject to provisions of McKinney Homeless Assistance Act) are required for admission to the school district.

If a birth certificate is not provided upon enrollment of a student for the first time in elementary or secondary school, the school district shall notify the person enrolling the student in writing that he/she must provide within thirty (30) days either a certified copy of the student's birth certificate or other reliable proof of the student's identity and birth date, which proof shall be accompanied by an affidavit explaining the inability to produce a copy of the birth certificate. Other reliable proof of the student's identity and birth date may include a passport, visa or other governmental documentation of the child's identity. If the person enrolling a student fails to provide the information within the requested thirty (30) days, the school district shall immediately notify the local law enforcement agency of such failure and again notify the person enrolling the student, in writing, that he/she has an additional ten (10) days to comply. If any documentation of affidavit received pursuant to this section appears inaccurate or suspicious in form or content, the school district shall immediately report the same to the local law enforcement agency.

If a school in which a child is currently enrolled receives notification by the Department of Law Enforcement of a missing or runaway child report regarding a particular child, the school shall "flag" the record in a manner that whenever a copy of or information regarding the record is requested, the school shall be alerted to the fact that the record is that of a missing or runaway child. The school shall immediately report any request concerning "flagged" records of knowledge as to the whereabouts of the missing or runaway child to the local law enforcement agency. The "flag" on a child's record shall be removed by the school upon notification by the Department of Law Enforcement.

A parent/guardian enrolling a child in the Fruitland school district who fails to provide the required documentation of a birth certificate to this school district after being requested by the local law enforcement agency may be guilty of a misdemeanor.

A student transferring schools within the school district need not provide proof of identity and birth date if the student's record already contains such verified information.

Students enrolling in the school district on or after the first day of school will start school at least one day after he/she registers to allow the school time to request records, determine placement, organize the transition into the new classroom and to allow the parents/guardians time to successfully complete all school registration paperwork.

Placement

Pupils will be assigned to the appropriate grade level. Assignment in the elementary school and the intermediate school will be determined by the administrative authorities.

The goal of the school district shall be to place students at levels and in settings that will enhance the probability of student success. Developmental testing, together with other relevant criteria, including, but not limited to, health, maturity, emotional stability, and developmental disabilities, may be considered in the placement of all students.

Family members that are in the same grade level, in the elementary grades K-5, (twin siblings, half or step siblings, cousins, etc.) will not be placed in the same classroom.

Policy Title: Open Enrollment Policy

Code No: 501.1

Fruitland School District is an open enrollment district and tuition will be waived for non-resident Idaho students who are allowed to attend this district under the terms of this policy.

Non-resident students are those Idaho students whose parent or guardian do not reside in this school district, but who have applied for admission or are attending school in this district through open enrollment.

A non-resident student's parent or guardian must apply **annually** for admission to a school in this district on a form provided by the State Department of Education. The application, accompanied by the student's accumulative record, must be submitted to this district by February 1st for re-enrollment during the following school year, unless the application deadline has been waived by agreement between Fruitland School District and the home district. The notice of application must also be given to the home district. Acceptance for open enrollment is for that year **only** and does not ensure enrollment in the future.

The district will notify the applicant that the application has been accepted or denied for the following school year within sixty (60) days of February 1st or the date of the application.

No student shall be eligible to participate in extracurricular activities, in violation of policies governing such eligibility, by attending school in this district pursuant to this policy.

This district shall take no action to prohibit or prevent application by its students to attend school at another district.

A student suspended or expelled from any other school district may be ineligible for open enrollment in this school district.

New Applications for Open Enrollment are due to the District Office by August 1st to be considered for the new school year. To be considered for second semester, applications are due November 15th.

This district is concerned about its class size and the effect that enlargement of the student-teacher ratios will have upon the educational program. Therefore, this district has determined that admission of students in excess of the following ratios could work a hardship on the district, its teachers, staff, students and educational program:

| <u>GRADE</u> | <u>RATIO</u> |
|--------------|------------------------------|
| K-1 | 23:1 |
| 2-4 | 24:1 |
| 5-6 | 25:1 |
| 7-12 | 140 students in grade level. |

An exceptional student resource class ratio shall be 10:1.

An exceptional student severe class ratio shall be 3:1.

The Board will consider all open enrollment applications on a case-by-case basis to determine if the application will create a hardship on the school district. Requests determined not to create a hardship on the school district will be given priority for approval as follows:

1. School District staff
2. Current Students in Good Standing
3. Property owners in the school district
4. Date of submission of Application.

Students approved for open enrollment will complete an Open Enrollment Behavioral Contract signed by the student's parent and/or guardian. The parent and/or guardian shall be responsible for transporting the student to and from the school or to an appropriate bus stop within this district.

Policy Title: Retention/Promotion of Students

Code No: 503

Promotion and retention of students are academic decisions made by the school administration. In general, children will be placed at the grade level at which they are best adjusted academically, socially, and emotionally. Parents are encouraged to attend parent/teacher conferences and to utilize after school and summer school programming when available through the school district.

RETENTION

Children in grades Pre-K through 8th will usually progress annually from one (1) grade to the next. However, in cases where it is determined that retention is in a particular student's best interest, he or she may be retained in the same grade for one (1) additional year. Retention will be determined by the building principal, or, when applicable, by the student's IEP or 504 team.

Parents may utilize any rights pursuant to IDEA or 504 when the IEP or 504 teams makes the decision regarding promotion or retention.

The teacher will communicate with parents verbally after first semester if he/she thinks a child may be retained. The teacher will document that they have talked with the parents.

During spring parent/teacher conferences, the teacher will inform parents of the possibility of retention. If it is recommended that the child attend Pre-First and the parent chooses not to follow the recommendation, the principal has the right to retain the child in kindergarten.

If the parents agree with the retention recommendation, the teacher will prepare a retention form for the parents to sign. The retention form must be turned into the office by May 1st.

If the parents disagree, a meeting will be scheduled with the principal, counselor, parents, teacher, and reading and achievement specialist when applicable. A decision will be rendered on the appeal by May 1st.

The principal will make the final determination on retention of the student.

Parents are encouraged to be involved in their student's education and progress and to utilize all available school programming to enhance the student's educational progress.

Policy Title: Attendance of Pupils

Code No: 504

NINETY PERCENT (90%) ATTENDANCE

The Fruitland School District recognizes that time on task is very important to the education of students. Students are expected to be present at school and in their assigned grade or subject at least ninety percent (90%) of the time that school is in session during each school term.

The Fruitland School District may deny a promotion to the next grade or deny credit to any student who does not comply with the attendance policy, even if the student has passing grades.

A child may be exempt from such compulsory attendance by recommendation of a licensed “medical and/or mental health professional” who must certify that the physical and/or mental condition does not permit attendance at school. A child may be exempt if the Board of Trustees rules that a child is a habitual truant or when the child’s conduct is disruptive of school order and discipline.

DEFINITION OF ABSENCES

Verified Absences occur when a student is absent from school with the parent/guardian’s knowledge and consent:

- a. Verified absences will be counted when the percentage of attendance (90%) and consequent eligibility for promotions or credit is being considered.
- b. The notification for consent by the parent/guardian must follow the policies of the building principal.
- c. Verified absences may include, but are not limited to: student illness, medical or dental appointments, illness or death of family members, family conveniences, or pre-arranged absences.

School Release Absences occur when the student misses class(es) due to school-approved activities:

- a. School release will not be counted when the percentage of attendance (90%) and consequent eligibility for promotion or credit is being considered.
- b. School release absences may include, but are not limited to: class field trips, meeting sessions with principals, approved sports events, etc.
- c. The notification for consent of absence must follow the policies of the building principal.

Truancy Absences will result when any student is absent from school or class(es) without the knowledge and permission of his/her parent/guardian’s or school authorities:

- a. Truancy will be counted when the percentage of attendance (90%) and consequent eligibility for promotion or credit is being considered.
- b. No make-up privileges are allowed in the classes missed for truanancies.
- c. Continued truanancies may result in suspension/expulsion from school.

Extraordinary Absences may result in some circumstances:

- a. Extraordinary absences may include, but are not limited to: long-term, verified illness or medical treatment, and death amongst family members of close friends.
- b. Extraordinary absences will be counted when the percentage of attendance (90%) and consequent eligibility for promotion or credit is being considered.
- c. Those students who have valid reasons to believe that all or part of their absences are the result of extraordinary circumstances may request a review of their case.

Appeal Guidelines:

Step 1: An attendance committee approved by the Board of Trustees will review the records and the circumstances and determine whether or not the student will receive credit.

Step 2: The decision of the attendance committee may be appealed to the school district Board of Trustees for a final decision. The appeal must be filed in writing to the school district office within ten (10) workdays after the receiving the decision from the attendance committee. The Board of Trustees will address the appeal in executive session at its next regular meeting. The Board's decision will be final.

Specific attendance rules and procedures for each building are documented in the school's student handbook. Student handbooks are available from each school office.

Students are expected to conduct themselves in such a manner as not to interfere with the orderly operation of the educational program. The building principals are directed to establish reasonable rules and regulations for their respective facilities.

The primary responsibility for discipline rests with the teacher. Effective planning on the part of the teacher will eliminate most of the causes of bad pupil behavior. Policy Title Truancies Code No. 504.2

Fruitland School District No. 373, staying in compliance with Idaho Code, has adopted the following policy on Truancies.

Idaho Code, 33-202, requires that any child between the ages of seven (7) and sixteen (16) years of age must attend a public, private or parochial school during a period in each year equal to that in which the public schools are in session. Exceptions to this code are children being instructed in subjects commonly and usually taught in the public schools of the State of Idaho, by a parent or guardian.

Under the Juvenile Corrections Act, truancy is a status offense. Truant students may be detained by a peace officer and held until released to a parent or guardian. (Idaho Code 20-516)

Truancy defined: A student is truant when he/she is not in their assigned place at the assigned time or if a student leaves that assigned place without permission from the instructor.

If a student of the Fruitland School District is found to be truant, the following punishment may be implemented:

First Offense - Student's parent or guardian will be notified. Student will be suspended for one full day of school.

Second Offense - Student's parent or guardian will be notified. Student will be suspended for two full days of school.

Third Offense - Student's parent or guardian will be notified. Student will be allowed to stay in school until a School Board Meeting can be scheduled. If the student obtains his/her fourth (4) truant offense while waiting for the School Board Meeting, the student will immediately be removed from school and will not be allowed to return until after the Board Meeting. The Board will determine further action.

After a student has been expelled by the School Board, a petition shall be filed with the probate court of the county in which the child resides, as provided in section 33-205, Idaho Code.

Policy Title Suspension and Expulsion Code No. 505

A temporary suspension shall not exceed (20) twenty school days. The principal may suspend a student for a period not to exceed (5) five days for each offense that is serious enough to warrant suspension. The superintendent may extend the temporary suspension (10) days and the Board of Trustees, upon finding that immediate return to school would be detrimental to other students' health, welfare or safety, may extend the suspension for an additional (5) five days, making the total days for a temporary suspension (20) twenty school days.

A student may be suspended for disciplinary reasons or for conduct disruptive of good order or of the instructional effectiveness of the school. Only the Board of Trustees may expel a student from school.

Students with disabilities are subject to suspension and expulsion guidelines as established by Fruitland School District's adoption of Idaho's Special Education Implementation Manual.

Procedure: The principal or superintendent will:

- (1) Call the student to the office for an informal hearing. The student shall be given the chance to explain the circumstances or to deny the charges.
- (2) The principal or superintendent may determine if suspension is required. Explain circumstances to the student.
- (3) If the decision is to suspend, notify parents by phone. Do not send student home until parents have been notified and assumed responsibility for the student. If necessary, retain student at school until the end of the school day.
- (4) Send a written notice to the parents, and advise them of their right to a conference upon request. Parents must advise principal or superintendent at the conference if they intend to challenge the suspension and file a Notice of Intent to Challenge with the board.
- (5) Notify the Board of Trustees within one (1) day of the action taken.

If the parents challenge the suspension, the board shall schedule a hearing within thirty (30) days and give notice of parental right. The board shall render its decision within thirty-five (35) days following the hearing and give written notice of its decision to the parents.

Expulsion: The Board of Trustees may deny attendance at any of its schools to any pupil by expulsion for any of the following reasons:

- (1) habitual truant
- (2) conduct continuously disruptive of school discipline
- (3) conduct continuously disruptive of instructional effectiveness of the school
- (4) incorrigible

(5) whose presence in the public school is detrimental to the health and safety of other pupils.

Any student expelled may be re-admitted by the Board of Trustees under conditions (reasonable) prescribed by the board. Re-admission does not prevent the Board from again expelling the pupil for cause.

Procedure: The Board of Trustees will notify the parent or guardian of the proposed expulsion. The notice will give the time and place for the hearing at which the parent or guardian may appear to contest the expulsion. An electronic recording of the hearing will be available to authorized individuals or agencies for three (3) years at which time the recording will be destroyed.

The notice will state the rights of the pupil to be represented by counsel, to produce witnesses and submit evidence, and to cross-examine witnesses who may appear against him.

Within a reasonable time of the notice the pupil will be granted a full and fair hearing on the proposed expulsion.

Any pupil who is within the age of compulsory attendance who is expelled will come under the purview of the Youth Rehabilitation Law. An authorized representative of the Board (generally the Superintendent) shall file a petition with the magistrate division of the district court in the county of the pupil's residence (sec. 16-1807, Idaho Code).

Some specific reasons for Suspension and/or Expulsion are:

- (1) Swearing or use of obscene language
- (2) Insolent behavior to faculty or staff
- (3) Truancy and/or "cutting" classes
- (4) Forging notes or passes
- (5) Theft
- (6) Disregard for the rights of others
- (7) Vandalism of school property

Policy Title: Prohibition of Weapons

Code No: 505.1

This Fruitland School District is committed to providing a safe environment for all students and staff when they are at school, on a school bus, or at any school-sponsored activity. The school district's commitment includes the prohibition against any weapons or other objects/substances which may pose a threat to the health and safety of other students, staff members, or visitors, or could be used to disrupt the educational process.

PROHIBITIONS

Students attending Fruitland schools are prohibited from:

1. Possessing or carrying objects/substances which are manufactured, used, or intended for use as a weapon, or facsimiles thereof, at school, on a school bus, or at any school-sponsored activity without prior permission of school officials.
2. Possessing, carrying, using, and/or threatening to use, any normally non-dangerous object or substance with the intent or result of causing harm to another individual at school, on a school bus, or at any school-sponsored activity.
3. Knowingly assisting another student(s) to possess, carry, or use a weapon at school, on a school bus, or at any school-sponsored activity.

DEFINITIONS

“Possess” is defined as bringing an object, or causing it to be brought, onto the property of a school, or onto a vehicle being used for school-provided transportation, or exercising dominion and control over an object located anywhere on such property or vehicle. A student will be determined to possess a weapon when the item is found to be in any of the following locations:

1. On a student's person;
2. In the student's personal property, including, but not limited to, the student's clothing, backpack, purse, or any other item the student transports or carries and/or causes to be transported or carried to school;
3. A vehicle parked in the school parking lot which the student drives and/or is transported in;
4. The student's locker; or
5. Any other school-related or school-sponsored event, regardless of location.

“Deadly or dangerous weapon” means a weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than 2½ inches in length as defined in 18 U.S.C. Section 930. “Weapon” additionally includes a knife with a blade of any length.

“Firearm” shall mean any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; the frame receiver of any such weapon; any firearm muffle or firearm silencer; any destructive device, including any explosive, incendiary or poisonous gas, bomb, grenade, or rocket, missile, mine, or similar device, as defined in 18 U.S.C. Section 921, and air rifles or other weapons that propel a projectile with air, or pellet guns, or paint ball guns.

INVESTIGATION

The school principal and/or superintendent will immediately investigate any allegation that a student is in violation of this policy. If determined necessary by the school principal and/or superintendent, law enforcement may be requested to conduct the investigation. Any item identified as a weapon may be confiscated by the

school principal and/or school staff. Students reasonably believed to be in possession of these items may be suspended from school until a thorough investigation is completed.

DISCIPLINARY ACTIONS

Any student found to be in violation of this policy will be subject to disciplinary action, including, but not limited to, expulsion, suspension, or other appropriate penalties. The principal may refer the student to the school district administrative review committee to conduct an informal review of any violation of this policy to determine if the violation should be sent to the school district Board of Trustees for an expulsion hearing. The Board of Trustees may, at its discretion, expel a student for the possession and/or use of a weapon, regardless of whether the item at issue falls within the definition of “weapon” under the Gun-Free Schools Act.

Disciplinary action will be taken after reviewing all factors, including, but not limited to, the mandates of federal and state law; the student’s actions; the risk of harm to the students, district personnel, and patrons; the student’s academic standing; the likelihood of recurring violation; and the student’s prior conduct.

Expulsion Mandated by Federal Law

The school district Board of Trustees shall expel a student when the student’s actions violate federal law, as set forth in the Gun-Free Schools Act and Idaho law, regarding the prohibition of weapons:

Gun-Free Schools Act. A student is found by district personnel or by law enforcement personnel to have carried a dangerous weapon as defined by 18 U.S.C. Section 921 on school property. The definition of weapon, for purposes of expulsion under this provision, includes a firearm or destructive device which is designed to or may be readily converted to expel a projectile by the action of an explosive or other propellant. Destructive devices such as any explosive, incendiary, or poisonous gas, bomb, or grenade are also defined as firearms.

Specifically excluded from the definition of “weapons” pursuant to the Gun-Free Schools Act, and therefore not subject to mandatory expulsion, are weapons which are used in activities, approved and authorized by the school principal and/or superintendent, when appropriate safeguards are taken to ensure student safety.

The expulsion, pursuant to the Gun-Free Schools Act, will be for a period of not less than one (1) year (twelve (12) calendar months). The school district Board of Trustees may modify the expulsion order on a case-by-case basis, taking into account the individual circumstances and the severity of the incident.

Referral to Law Enforcement

The school district will refer any student who brings onto school property a weapon or firearm, as defined under the Gun-Free Schools Act or Idaho law, to law enforcement. The school district Board of Trustees may, at its discretion, refer other students who violate this policy to law enforcement.

STUDENTS WITH DISABILITIES

Disciplining students with disabilities, as defined by Public Law 94-142 and subsequent amendments, and Section 504 of the 1973 Rehabilitation Act, under this policy will follow federal guidelines.

DENIAL OF ENROLLMENT

This school district will not consider admitting a student who has been expelled from another school district for violation of a statute, regulation, or policy which prohibits weapons until the student is eligible to return to his or her home school district. If a student wishes to challenge that decision, he or she is entitled to a due process hearing pursuant to Idaho Code Section 33-205.

Policy Title Student Policy on Life-Threatening Illness Code No. 509

The Fruitland School District recognizes that students with life-threatening illnesses including, but not limited to, cancer, heart disease and AIDS, may desire to continue to engage in as many of their normal pursuits as their condition allows, including school attendance. The district further recognizes that federal law, including Section 504 of the Rehabilitation Act and the Americans with Disabilities Act, protects students with life-threatening illnesses from discriminatory actions.

Therefore, it is the policy of the Fruitland School District to enroll students with life-threatening illnesses in school and to encourage attendance. Enrollment and attendance will be based on medical evidence and discussions with the student and/or his/her family. As long as such students are able to attend school and medical evidence indicates that their conditions are not a direct threat to themselves or others, they will be encouraged to continue school attendance.

Code No. 509.1

For the purpose of the guidelines set forth in this policy, the terms "infected individual" includes "infected students" and "infected employees". These terms are defined as those persons who have been diagnosed as having AIDS or ARC (AIDS Related Complex) and to persons who are asymptomatic carriers who have a virologic or serologic evidence of infection.

The determination of whether an infected student (employee) shall be permitted to attend classes and participate in school activities with other students shall be recommended by an evaluation team on a case by case basis to the Board of Trustees. The Board of Trustees shall consider the evaluation teams' recommendation and make a final non-precedential determination. In making this recommendation, the team shall consider in each case: (1) the behavior, neurological development, and physical condition of the student; (2) the expected type of interaction with others in the school setting; and (3) the risks and benefits to both the infected individual and others in the school setting.

Policy Title: Drug, Alcohol, and Tobacco Policy

Code No. 510

PHILOSOPHY

It is the Idaho Legislature's intent that parental involvement in all aspects of a child's education in Idaho public schools be part of each school district's policy. Drug prevention programs and counseling for students under the custody and care of the public schools are included in this intent.

The board of trustees recognizes that student use of chemical substances, including alcohol, is a serious problem of utmost concern in our society. Drug, alcohol, and tobacco use is detrimental to a state of well-being and undermines the aim of education, which is to enable individuals to develop to their full potential. The district seeks to ensure the highest standards of learning in the classroom and recognizes that use of chemical substances—including alcohol, tobacco, and controlled substances—creates educational, economic, and legal problems.

DEFINITIONS

“Alcohol” any alcoholic beverage (including beer, wine and liquor as defined by Section 23-105 and 23-112 of Idaho Code)

“Assessment Team” specially trained school and community members as selected by the school counselors and administration.

“Controlled substances” include, but are not limited to, opiates, opium derivatives, hallucinogenic substances, including cocaine, and cannabis and synthetic equivalents of the substances contained in the plant, any material, compound, mixture or preparation with substances having a depressant effect on the central nervous system, and stimulants.

“Course of conduct” involves a pattern or series of acts over a period of time, however short, evidencing a continuity of purpose. Course of conduct does not include constitutionally and statutorily protected activity.

“Drug” includes any alcohol or malt beverage, any tobacco product, any controlled substance, any illegal substance, any abused substance, any substance which is intended to alter mood, and any medication not prescribed by a physician for the student in possession of the medication.

“Drug Paraphernalia” any item, implement, object, or material employed in the use, possession, transport, or sale of any mood altering or controlled substance.

“Extra-curricular activities” any school sponsored or related activities that do not take place in the classroom.

“Illegal Drugs” any controlled substance as defined by Section 37-2701, Idaho Code (not including over-the-counter drugs or prescription drugs which have been prescribed by a doctor or dentist, and/or any other substance which alters or changes a person's mood, and/or anabolic steroids.

“In-School Assessment” an assessment by the in-school assessment team to determine need and generate recommendations.

“Intentionally harass” means a knowing and willful course of conduct directed at a specific student which seriously alarms, annoys, threatens, or intimidates the student and which serves no legitimate purpose. The course of conduct must be such as would cause a reasonable person to suffer substantial emotional distress.

“Intervention Trained” any public educator, counselor or administrator who has completed a state accredited course related to illegal drugs, their physical characteristics, physiological effects and how student behavioral changes typically associated with the use of such products may be evidenced in the classroom.

“Reasonable suspicion” means an act of judgment by a district employee or independent contractor that leads to a reasonable and prudent belief that a student is in violation of this policy or the “use” or “under the influence” provisions of Idaho Code Section 37-2732C, which defines controlled substances. Such act of judgment is based on the employee's or independent contractor's training in recognizing the signs and symptoms of alcohol and controlled substance use. The fact that a student has previously disclosed use of a controlled substance will not be deemed a factor in determining reasonable suspicion at a later date.

“School premises” includes all buildings, facilities, and property owned or leased by the district, school buses and other school vehicles, and the location of any school-sponsored activity or function.

POLICY

Students attending school in this district will not use, possess, sell, buy, or distribute drugs, including alcohol, tobacco, controlled substances, or related paraphernalia, on school premises.

Any student will violate the district's drug, alcohol, and tobacco use policy when:

1. He or she is on school premises, evidencing behavior that creates a reasonable suspicion that he or she may be illegally under the influence of drugs/alcohol/tobacco;
2. He or she admits to using, possessing, selling, buying, or distributing drugs/alcohol/tobacco on school premises;
3. He or she is found to use, possess, sell, buy, or distribute drugs/alcohol/tobacco, or related paraphernalia, on school premises;
4. He or she is found to possess drugs/alcohol/tobacco, or related paraphernalia, or to have such substances on his or her person, or in his or her locker, vehicle, or other property on school premises;
5. He or she is found to knowingly attempt to use, sell, buy, or distribute drugs/alcohol/tobacco or related paraphernalia on school premises;
6. He or she is found to knowingly be present when drugs/alcohol/tobacco or related paraphernalia are being used, sold, bought, or distributed on school premises.

ALCOHOL OR CONTROLLED SUBSTANCES: VOLUNTARY DISCLOSURE

Any student who voluntarily discloses using or being under the influence of alcohol, tobacco or any controlled substances before he or she is reasonably suspected to be in violation of the law and this policy will be provided anonymity to the extent that:

6. Disclosure is held confidential on a faculty need-to-know basis; and
7. Notification of the disclosure and availability of counseling is provided to the student's parent/guardian.

There shall be no disciplinary action, provided the student follows the guidelines set out in the section marked "Referrals to Drug, Alcohol, and Tobacco Assessment Team" of this policy.

ALCOHOL OR CONTROLLED SUBSTANCES: REFERRAL TO LAW ENFORCEMENT

Once a student is reasonably suspected of being in violation of the law and this policy regarding alcohol, tobacco or controlled substances, regardless of any previous voluntary disclosure, the building principal or designee will immediately notify the student's parent or guardian and report the incident to the local law enforcement agency.

Any student exhibiting inappropriate behavior that suggests "using" or "being under the influence" of alcohol, tobacco or controlled substances will be immediately escorted by a district employee to an administrative office for interviewing and observation by the principal or designee. Except in the case of an emergency, the student will not be left unattended and will not be allowed to leave the school premises.

The principal or designee will refer the student to the law enforcement agency if, upon observing and/or interviewing the student, he or she reasonably suspects that the student is using or under the influence of alcohol, tobacco or a controlled substance. District employees will cooperate fully with any law enforcement investigation of a violation of this policy, including, but not limited to, providing access to lockers, desks, and other school property, and providing oral and/or written statements regarding the relevant events.

The principal or designee, and/or any other employee having observed the student's behavior will document his or her observations of the student; the documentation will be provided to the law enforcement agent, and a copy will be placed in the student's discipline record.

ENFORCEMENT PROCEDURES

A student found to be in violation of the Fruitland School District drug, alcohol and tobacco policy for the first time will be subject to the following procedures:

FIRST OFFENSE

1. School will contact parent/guardians.
2. School will refer to law enforcement.
3. Student will receive a five (5) day suspension from school if the student agrees to a referral to the school district "Drug, Alcohol, and Tobacco Assessment Team" for review, enrollment and satisfactory completion of a private drug, alcohol, and/or tobacco education class pre-approved by the school district "Drug, Alcohol, and Tobacco Assessment Team"
4. Student will receive a nine (9) day suspension from school if the student does not agree to referral to the school district "Drug, Alcohol, and Tobacco Assessment Team" and enrollment in a drug, alcohol, or tobacco education class.

A student found in violation of Fruitland High School's and/or Fruitland Middle School's extra-curricular regulations regarding Drug/Alcohol/Tobacco use, on or off campus, will be subject to the following procedures:

1. Students participating in extra-curricular and/or interscholastic activities, who agree to a referral to the school district "Drug, Alcohol, and Tobacco Assessment Team" for review, enrollment in and satisfactory completion of a private drug, alcohol, and/or tobacco education class pre-approved by the school district "Drug, Alcohol, and Tobacco Assessment Team", will be ineligible to participate for a minimum of 25% of the total regular season contests, a minimum of three weeks of activities or a maximum of six games/activities. A student must attend practice and complete the current season or the suspension will carry over to the next season in which the student participates; the time of ineligibility will begin with the first scheduled contest after the infraction. Should a student violate the Drug, Alcohol and Tobacco policy between seasons, including the summer, ineligibility will begin at the beginning of the next sport in which the student participates. When figuring a percentage of the season to be missed any part of a contest will be rounded up to the next whole number, i.e. 25% of 13 regular season contests = 3.25; contests missed = 4. In the event of an infraction occurring while an athlete is not currently participating in a sport the athlete may not join a sport after its start date in an attempt to complete the imposed suspension.
2. Students participating in extra-curricular and/or interscholastic activities, who do not agree to a referral to the school district "Drug, Alcohol, and Tobacco Assessment Team" for review, enrollment in and satisfactory completion of a private drug, alcohol, and/or tobacco education class pre-approved by the school district "Drug, Alcohol, and Tobacco Assessment Team", will result in a one calendar year suspension from all extra-curricular and interscholastic activities from the date of the infraction to the corresponding date the following year, i.e. May 1, 2010 – May 1, 2011.

SECOND OFFENSE

1. A student will be ineligible to participate in any extra-curricular and interscholastic activity for a minimum of one (1) year from the date of infraction, i.e. May 1, 2010 – May 1, 2011 and must agree to a referral to the school district "Drug, Alcohol and Tobacco Assessment Team" for review, enrollment in and satisfactory completion of a private drug, alcohol and/or tobacco education class pre-approved by the school district.
2. Students participating in extracurricular and/or interscholastic activities, who do not agree to a referral to the school district "Drug, Alcohol and Tobacco Assessment Team" for review, enrollment in and satisfactory completion of a private drug, alcohol class pre-approved by the school district "Drug, Alcohol and Tobacco Assessment Team", will result in forfeiture of eligibility to participate in extra-curricular and interscholastic activities for the remainder of their high school career.

THIRD OFFENSE

1. Will result in a forfeiture of student's eligibility to participate in extra-curricular and interscholastic activities for the remainder of their high school career.

REFERRALS TO DRUG, ALCOHOL, TOBACCO ASSESSMENT TEAM

STAFF/OTHER REFERRALS

When a staff member or other concerned person refers a student to the Assessment Team, the person making the referral must complete a Response Form to be forwarded to the Assessment Team.

SELF REFERRALS

If a student voluntarily requests assistance from school officials with regard to an alcohol, tobacco and/or substance use/abuse problem, there shall be no disciplinary action provided that:

1. The student is not under the influence or in possession of alcohol, tobacco and/or illegal/controlled substance at the time help is requested.
2. The student will discuss concerns with parent(s) or legal guardian(s). An Assessment Team member will support the student in discussing a substance abuse problem with the parent(s) and/or legal guardian(s).
3. The student meets with a school assessment team member or professional person and follows recommendations which may include:
 - a. In-school intervention: Assessment Team, Peer Support Groups, Contractual Agreements.
 - b. Out-of-school Intervention/Treatment: Assessment by a community agency, narcotics anonymous, education programs through community programs.
 - c. Family-based information and support: Tough love, Al-Anon, Ala-teen, community agency programs, contractual agreements.

Subsequent voluntary requests automatically result in a referral to the team, with an assessment required.

SEARCH AND SEIZURE

A student's person and/or personal effects (e.g., purse, book bag, etc.) may be searched whenever a school official has reasonable cause to believe that the student is in possession of drugs or drug paraphernalia. Any evidence that a student has violated the law and this policy may be seized by the principal or designee.

Lockers and desks are school property and remain at all times under the control of the school; however, students are expected to assume full responsibility for the security of their lockers and desks. Authorized school officials may open and inspect lockers and desks when there is reasonable cause to believe that the locker or desk may contain items which may be a threat to safety or security. Such a search may be conducted without a search warrant, and without notice or consent.

Students are permitted to park on school premises as a matter of privilege, not right. The district retains the authority to conduct routine patrols of school parking lots and to inspect the exteriors of automobiles on school premises. The interiors of vehicles on school premises may be inspected whenever an authorized school official has reasonable cause to believe that illegal materials are contained inside. Such patrols and inspections may be conducted without notice, consent, or a search warrant.

STUDENTS WITH DISABILITIES

Suspensions and expulsions of students with disabilities as defined by Public Law 94-142 and subsequent amendments (Individuals with Disabilities Education Act), Section 504 of the 1973 Rehabilitation Act, and the Americans with Disabilities Act will follow federal guidelines as well as the provisions of this policy.

IMMUNITY FOR GOOD FAITH IMPLEMENTATION

District employees and independent contractors of the district who implement this policy in good faith and with appropriate foundation are immune from civil liability.

INTENTIONAL HARASSMENT

District employees and independent contractors of the district are prohibited from using their authority to determine reasonable suspicion solely for the purpose of intentionally harassing a student. Using the authority in such a manner may result in disciplinary action against the employee or may be considered a breach of the district's contract with the independent contractor.

NOTICE

Upon revisions of this policy, the school administrator will provide notice of the policy to each student and parent/guardian. A copy of the policy will be provided to each student, as well as to the parent/guardian, at the time of registration in a district school.

3. Test results will be accompanied by an information packet which provides the parent or legal guardian with information about agencies and other sources which provide help to people with substance abuse problems.
4. If the parent or legal guardian wishes to make the results known to the school district and the results are positive, Fruitland School District will offer it's services in an attempt to help the student.

Policy Title: Extra-Curricular Random Drug Testing Code No. 510.2

Students participating in interscholastic athletics represent the community, the school, and their peers. When an athlete uses illegal substances and /or alcohol, such use impinges upon the team's motivation, cohesiveness and performance. As a result, the well being of the individual, the team, and the general school community is diminished by an athlete's use of illegal substances and/or alcohol.

As participation in athletics is a privilege, not a right, student athletes voluntarily subject themselves to a degree of regulation higher than that imposed on students generally. Students who voluntarily participate in school athletics have reason to expect intrusions upon normal privileges, including privacy.

This school district will test student athletes for illegal substances and/or alcohol use by administering urine analysis tests. This policy applies to all district students participating in athletics sponsored by the Idaho High School Athletic Association (IHSAA).

This drug-testing program shall be instituted and conducted according to the procedures set forth below. Before any student participates in any interscholastic athletic program (including cheerleading and dance/drill team) at Fruitland High School, the student and the student's custodial parent or lawful guardian shall execute and deliver to Fruitland High School a written consent in the form attached hereto as Exhibit A. Any student who refuses or fails to provide a duly executed consent, or who refuses or fails to comply with the provisions of this policy shall not be allowed to participate in any interscholastic athletic program, (including cheerleading and drill/dance team) sponsored by Fruitland High School.

Definitions

Student Athlete—Any student participating in any interscholastic athletic program sponsored by the IHSAA, including cheerleading and drill/dance team; non-athletic activities sponsored by the IHSAA are specifically excluded from this policy.

Sports Season—The period of time identified by the IHSAA during which schools are allowed to practice and compete in IHSAA sponsored competitions for a particular sport. If no period of time is identified by the IHSAA, the sport season shall begin the date of the first practice and expire on the date of the final competition or performance.

General Provisions

1. The results of the tests will be disclosed only to the student, parent/guardian and those school personnel who have a need to know.
2. If it is reasonably suspected that a student athlete is using drugs or alcohol, this district's policy on student drug and alcohol use will be followed (Policy No. 510).
3. The school district will pay any costs associated with collecting urine samples and testing by an independent laboratory for the initial testing of the sample, as well as all administrative fees necessary to implement this policy.

A. STUDENT SELECTION

At the option of the Fruitland School District, all student athletes who are currently participating in a sport or qualified activity may be tested for drug or alcohol use at the beginning of any sport season. In addition, random testing of student athletes who are currently participating in a sport or qualified activity may be conducted during the sport season on a bi-weekly basis or any other frequency determined by the District.

Selection for random testing will be by lottery drawing from a “pool” consisting of all student athletes participating on a team engaged in interscholastic athletic programs sponsored by the District at the time of the drawing. Separate pools shall be established on a team-by-team basis. The Superintendent or his/her designee shall take all reasonable steps to assure the integrity, confidentiality and random nature of the selection process including, but not necessarily limited to: assuring that the names of all participating student athletes are in the pool; assuring that the person drawing names has no way of knowingly choosing, or failing to choose particular students for the testing; assuring that the identity of students drawn for testing is not known by the person making the selection or by persons involved in the analysis of urine specimens, and assuring direct observation of the selection process by at least one other adult.

II. PROCEDURES FOR RANDOM DRAWING

Prior to the start of practice for a particular sport, all students in Fruitland High School, who wish to participate in such sport, shall submit a signed consent in the form attached hereto as ‘Exhibit A’. When students are given the consent forms, they shall also be given a copy of the District’s Drug Testing Policies and be fully advised of the manner in which the drug-testing program will be operated.

From the date of the first practice until the date of the final competition for each sport, a maximum of twenty percent (20%) of the total number of participants on each team may be tested every two weeks or on any other frequency determined by the district. To assure the anonymity of the athletes tested, each athlete will be assigned a number at the beginning of testing. These numbers and the identity of the student to whom such number are assigned will be known only to the District Athletic Director, who will assign these numbers and secure the list, and to the Superintendent. The Superintendent or his/her designee will keep the number lists in a secure place where access is limited only to them. All lists will be destroyed within thirty (30) days after the end of the sport season, except the numbers for students who have tested positive for use of illegal drugs or alcohol. These may be kept until the student is eligible to again participate in interscholastic sports.

After all numbers are drawn for a particular testing period, they will immediately be returned to the pool of numbers for the next test, in order to assure randomness of draw. It is possible that the number of an athlete may be drawn several times during the season, or not drawn at all.

III. URINE SAMPLING PROCEDURE

Urine samples will be collected by an approved private agency and the collection of samples shall be conducted according to procedures, sufficient to meet Federal DOT (Department of Transportation) Standards, which protects the privacy of the student and ensures the accurate labeling of urine samples. A lab test procedure will be used by the private agency for re-testing in the case of a positive onsite test.

Students who refuse to provide a sample will be considered to have tested positive.

IV. PRESCRIPTION MEDICATION

Students who are taking prescription medication may provide a copy of the prescription or a doctor's verification in a sealed envelope to the high school principal. The student will have 24 hours or until the next school day from the time of testing to submit the prescription drug verification in a sealed envelope. The high school principal or his/her designee shall submit the sealed envelope, unopened, to the testing agency for consideration in making an analysis. Similar situations will be addressed in consultation with the drug testing company.

V. SCOPE OF THE TEST

The testing lab will be instructed to test for one or more controlled substances or alcohol. The superintendent and his/her district office personnel designee shall decide which illegal drugs will be screened, but in no event shall that determination be made after the selection of students for any testing period. Urine samples will not be screened for the presence of any substance other than an illegal drug or alcohol, nor for the purpose of identifying the existence of any disability or physical condition or psychological condition.

VI. ACCESS TO RESULTS

The testing lab will be authorized to report results only to the Superintendent or to such other adult persons as the Superintendent may designate. Positive test results will be relayed to the Athletic Director. Test results shall be destroyed at the expiration of one year after the last day of the sports season for the school year in which the tests were conducted, except with respect to athletes who have been tested positive.

VII. PROCEDURE IN EVENT OF POSITIVE RESULT

Whenever a student athlete's test result indicates the presence of an illegal drug or alcohol, the following procedure shall be followed:

1. Student's parent(s) or legal guardian(s) and the building principal shall be notified.
2. After the meeting with the building principal, the athlete's number will be returned to the pool.

VIII. CONSEQUENCES OF A POSITIVE DRUG TEST

In the event a student tests positive for the use of alcohol or the unauthorized or illegal use of a drug or drugs, the student will be remanded to the custody of the Care Team. The student will then fall under the guidelines of the Fruitland School District's current Drug, Alcohol, and Tobacco Policy (No. 510).

IX. NON-PUNITIVE NATURE OF POLICY

Detection of illegal substance or alcohol use obtained pursuant to this policy will not be used as a basis to discipline a student or penalize him or her academically. Such detection will not be made part of a student's permanent record, and does not constitute reasonable suspicion, pursuant to Idaho Code Section 33-210. Information regarding the results of drug tests will not be disclosed to criminal or juvenile authorities absent legal compulsion by valid and binding subpoena or legal process, which the school district will not solicit.

X. CONFIDENTIALITY

The results of drug tests pursuant to this policy will not be documented in any student's academic records. Information regarding the results of drug tests shall be kept confidential among the Superintendent, building principal, athletic director, head coach, or their designees, and the student's parent or legal guardian.

XI. QUALIFIED INDIVIDUAL WITH DISABILITY

This program is not intended to, nor shall it be used in any manner which results in the exclusion from participation in or denial of benefits, services, programs or activities of the district to, or in discrimination against, any qualified individual with a disability, solely on account of, or by reason of such disability. This program shall be interpreted and administered in accordance with Title II of the American's with Disabilities Act (42 U.S.d. 12101, et, seq) and Section 504 of the U.S. Rehabilitation Act of 1973 (29 U.S.C. 794).

XII. OBSTRUCTION OF TEST

Any student athlete who willfully provides a false urine sample or otherwise tampers with a urine sample or undertakes any effort to obstruct, evaluate, or impair the accuracy of a drug test, shall likewise be prohibited from or suspended from participation in interscholastic athletics for the current sport season and the next sport season for which the student is otherwise eligible and qualified to participate.

Sexual harassment is a form of sex discrimination which violates Section 703 of Title VII of the Civil Rights Act of 1964, as amended.

It is the policy of Fruitland Public Schools to maintain a learning and working environment that is free from sexual harassment. The Fruitland Public Schools prohibits any form of sexual harassment.

It shall be a violation of this policy for any student or employee of Fruitland School District Number 373 to harass a student or an employee through conduct or communication of a sexual nature as defined by this policy.

The School District will act to investigate all complaints, formal or informal, verbal or written, of sexual harassment and to discipline any student or employee who sexually harasses a student or employee of the School District.

SEXUAL HARASSMENT DEFINED

A. Sexual harassment consists of unwelcome sexual advances, requests for sexual favors, sexually motivated physical conduct or other verbal or physical conduct or communication of a sexual nature when:

1. Submission to that conduct or communication is made a term of condition, either explicitly or implicitly, of obtaining or retaining employment, or of obtaining an education; or
2. Submission to or rejection of that conduct or communication by an individual is used as a factor in decisions affecting that individual's employment or education; or
3. That conduct or communication has the purpose or effect of substantially or unreasonably interfering with an individual's employment or education, or creating an intimidating, hostile or offensive employment or educational environment.

Any sexual harassment as defined, when perpetrated on any student or employee by any student or employee, will be treated as sexual harassment under this policy.

1. Sexual harassment may include, but is not limited to:
2. verbal harassment or abuse;
3. subtle pressure for sexual favors or activities
4. inappropriate patting, pinching or touching

5. demanding sexual favors accompanied by implied or overt threats concerning an individual's employment or educational status;
6. demanding sexual favors accompanied by implied or overt promises of preferential treatment with regard to an individual's employment or educational status;
7. leering, whistling, touching, pinching, brushing the body, assault, coerced sexual acts, or suggestive, insulting or obscene comments or gestures;
8. continued or repeated sexual jokes, language, flirtations, advances or propositions;
9. display in the buildings, grounds or work place of sexually suggestive objects, pictures, posters, cartoons, graffiti, or clothing;
10. harassment constantly targeted at only one sex, even if the content of the verbal abuse is not sexual.

REPORTING PROCEDURES

Any person who believes he or she has been the victim of sexual harassment by a student or an employee of the Fruitland School District, or any third person with knowledge or belief of conduct which may constitute sexual harassment should report the alleged acts immediately to an appropriate School District official as designated by this policy. The School District strongly encourages the reporting party or complainant to put the allegation in writing as soon as possible.

1. In each building. The building principal is the administrator responsible for receiving oral or written reports of sexual harassment at their building level. The Transportation Supervisor, Maintenance Supervisor and Food Service Supervisor are the administrators responsible for receiving oral or written reports of sexual harassment in their respective departments. Upon receipt of a report, the administrator must notify the Superintendent immediately without screening or investigating the report. A written report from the administrator will be forwarded simultaneously to the Superintendent. If the report was given verbally, the administrator shall reduce it to written form within one working day and forward it to the Superintendent. Failure to forward any sexual harassment report or complaint will result in disciplinary action. If the complaint involves an administrator, the complaint shall be filed directly with the Superintendent.
2. District wide. The School Board hereby designates the Superintendent as the School District's Human Rights Officer to receive reports or complaints of sexual harassment from any individual, employee, student or victim of sexual harassment and also from the building principals as outlined above. If the complaint involves the Superintendent, the complaint shall be filed with the School District Board of Trustees. The School District will conspicuously post the name of the Human Rights Officer, including a mailing address and telephone number.

3. Submission of a complaint or report of sexual harassment will not affect the individual's future employment, work assignments, grades, or other educational opportunities.

The Fruitland School District will respect the confidentiality of the complainant and the individual(s) against whom the complaint is filed as much as possible, consistent with the District's legal obligation and the necessity to investigate allegations of harassment and take disciplinary action when the conduct has occurred.

INVESTIGATIONS AND RECOMMENDATIONS

By the authority of the School Board, the Superintendent, upon receipt of a report or complaint alleging sexual harassment, shall immediately authorize an investigation. This investigation may be conducted by the Fruitland School District Officials, or by a third party designated by the School District. The investigating party shall provide a written report of the status of the investigation within 10 working days to the Superintendent.

In determining whether alleged conduct constitutes sexual harassment, the School District should consider the surrounding circumstances, the nature of the sexual advances, relationships between the parties involved and the context in which the alleged incidents occurred.

The investigation may consist of personal interviews with the complainant, the individual(s) against whom the complaint is filed, and others who may have knowledge of the alleged incident(s) or circumstances giving rise to the complaint. The investigation may also consist of any other methods and documents deemed pertinent by the investigator.

In addition, the School District may take immediate steps, at its discretion, to protect the complainant, students and employees pending completion of an investigation of alleged sexual harassment.

The School District Human Rights Officer shall make a report directly to the School Board upon completion of the investigation.

SCHOOL DISTRICT ACTION

1. Upon receipt of a recommendation that the complaint is valid, the Fruitland School District will take such action as appropriate based on the results of the investigation.
2. The results of the investigation of each complaint filed under these procedures will be reported in writing to the complainant by the School District. The report will document any disciplinary action taken as a result of the complaint.

REPRISAL

The Fruitland School District will discipline any individual(s) who retaliates against any person who reports alleged sexual harassment or who retaliates against any person who testifies, assists or participates in an investigation, proceeding or hearing relating to a sexual harassment complaint. Retaliation includes, but is not limited to, any form of intimidation, reprisal or harassment, real or implied.

NON-HARASSMENT

The School District recognizes that not every advance or consent of a sexual nature constitutes harassment. Whether a particular action or incident is a personal social relationship, without a discriminatory

employment effect, requires a determination based on all the facts and surrounding circumstances. False accusation of sexual harassment can have a serious detrimental effect on innocent parties.

VIII. RIGHT TO ALTER NATIVE COMPLAINT PROCEDURES

These procedures do not deny the right of any individual to pursue other avenues of recourse which may include filing charges with the Idaho Human Rights Commission, initiating civil action or seeking redress under state criminal statutes and/or federal law.

SEXUAL HARASSMENT AS SEXUAL ABUSE

Under certain circumstances, sexual harassment may constitute sexual abuse under Idaho Child Welfare Code. In such situations, the Fruitland School District shall comply with the Idaho Statute concerning reporting suspected child abuse.

DISCIPLINE

Any school district action taken pursuant to this policy will be consistent with requirements of all applicable policies of the Fruitland School District. The Fruitland School District will take such disciplinary action it deems necessary and appropriate, including warning, suspension or immediate discharge to end sexual harassment and prevent its recurrence.

Policy Title Crisis Management Policy Code No. 513

Through team intervention we feel the district can help staff maintain professionalism (team members supporting one another), help if litigation should develop and provide better safety for all involved. Through implementation of a district-wide crisis intervention program, we will begin to effectively deal with crisis situations in a confident, competent, and sensitive manner.

A crisis involves a critical trauma that has (or will) disrupt the normal process of the school day. A crisis situation is an individualized matter, and the disruption of the school will depend on a variety of factors. The loss may be dealt with easily or it may be more difficult. In either case, we must be prepared to handle these situations, whether large or small.

The crisis intervention principle is to do things “with the troubled individual” rather than “to” or “for” him/her. With that idea in mind, we can then look at some basic counseling principles and techniques to foster healthy feelings and attitudes concerning grief and loss. When used in conjunction with a detailed district-wide plan for action, these techniques and principles can be a positive beginning in an effective crisis management program.

The Crisis Team will consist of the following members:

1. ADMINISTRATOR/DESIGNEE: making sure crisis procedures are in operation and functioning effectively.
2. TEACHER(S): being alert to possible student problems and referring these problems to the proper resources.
3. COUNSELORS: working with the team to initiate strategies in the management of the crisis.
4. NURSE: acting as a consultant, and coordinating with faculty, parents, physician, and students regarding the health and welfare of the student population.
5. LAW ENFORCEMENT REPRESENTATIVE: aiding with the legal aspects of crisis management.
6. SCHOOL SECRETARY (IES): being alert to possible student problems and referring these to the proper resources.
7. PARENTS: become a part of the crisis management team when deciding the proper direction for the best treatment of the child. In case of death, the school coordinates with the parents regarding funeral attendance and school programs.
8. MINISTERIAL COUNCIL AND CHURCH REPRESENTATIVES: work with team to initiate strategies in the management of the crisis.

Crisis team members will meet annually, in order to review policy and receive any training necessary.

The following suggested procedures are intended to serve as guidelines to the team in dealing with tragic events that affect the total functioning of the school population (i.e. accidents, deaths, or disasters). The team may also need assistance in dealing with threats to individuals health and/or safety (i.e. suicide threats or gestures, threats against students or faculty members, out of control behaviors, etc.).

1. Ancillary team members are notified to report to the school to join other team members in dealing with the crisis.
2. The team members from each school will facilitate notification of staff members and faculty during a crisis.
3. Each team member will be responsible to call their assigned faculty or staff members.
4. The team meets with the principal acting as the team leader who informs the team of the known facts and helps formulate a plan of action. Duties are assigned to team members and communication procedures are established.

Policy Title Fruitland School District Policy for Administering Idaho's Dual Enrollment Policy

Code No. 514

GENERAL:

The Board of Trustees, after review of communications of explanation from the State Superintendent of Public Instruction, the State Department of Education and the Deputy Attorney General assigned thereto and other affected parties and advisors, has promulgated the following policies to attempt to comply with and to assist in the administration and implementation of the provisions of Idaho Code, 33-203, (Dual Enrollment Statutes) consistent with other state statutes, this School Board's policies and State Board of Education Rules and Regulations. Because of the complex nature of this statute and the vague and ambiguous language contained therein, it is contemplated that these policies may have to be amended from time to time as experience dictates.

DEFINITIONS:

“Dual Enrollment” – A nonpublic student residing within the boundaries of this District who is legitimately enrolled in a private, parochial, or home school or at a post secondary institution and has not graduated from high school who is also dual enrolled in this District's schools by meeting the criteria outlined herein.

“Nonpublic Student” – Any student who receives educational instruction outside a public school classroom and such instruction can include, but is not limited to, a private school or home school.

“Primary Education Provider” – That person or entity providing the majority of the nonpublic student's educational instruction outside the public school Programs or Activities.

“Program and Activity” – The terms “program” and “activity” as used in I.C. 33-203 shall include any regularly scheduled course of study or any regularly scheduled interscholastic activity recognized or sanctioned by the Idaho High School Activities Association.

Program or activity shall not include testing, health, or other similar type services nor does it include incidental activities such as school dances or field trips not directly related to an academic class for which the student is properly enrolled.

ENROLLMENT:

Any nonpublic student wishing to enroll in a school in this District must provide evidence of residence in this District, acceptable evidence of date and place of birth, evidence of immunizations required by the State of Idaho (or suitable waiver) and must comply with the registration procedures required by the District which includes providing complete records of the student's academic history.

REGISTRATION AND PROCEDURES:

Before entering a program or activity a nonpublic student must complete registration and gain admission to a school in this District. Registration shall include in addition to routine procedures, the providing of all student records and testing information (where necessary) to qualify for admission as a nonpublic student and to identify appropriate placement for the student. Such registration and admission procedures are required even if a student is requesting dual enrollment status only for participation in an interscholastic or nonacademic activity.

TRANSPORTATION:

A nonpublic student shall not be entitled to have transportation to or from school furnished by the District.

INTERIM PERIODS:

If a nonpublic student is dual enrolled in classes or activities which are not contiguous in time (i.e., a first period and a fourth period class), the student shall not be on the school premises other than when the program or activity for which the student is enrolled is taking place. The District shall not be responsible for the care or supervision of the student in any form for periods before, in between or after the programs or activities for which the student is properly enrolled. Any transportation needs for such students not provided for otherwise under this policy during the school day shall be the sole responsibility of the student and his/her parents or guardian.

EXTRACURRICULAR NONACADEMIC ACTIVITIES:

Any nonpublic student involved in an extracurricular activity shall be subject to all the same eligibility standards as a regular full time student.

The parents or guardian of a nonpublic student are responsible for obtaining third party testing for their child at their expense in accordance with I.C. 33-203 and State Board of Education rules. Test results from the Iowa Test of Basic Skills (I.T.B.S.) or the Test of Academic Proficiency (T.A.P.) must be provided to the school principal as a condition of enrollment. The student must achieve a minimum composite score of the fifth stanine or higher to be eligible for dual enrollment each year admission is requested in nonacademic programs. Test results from a given year shall be used to determine academic eligibility for the following year and are only valid for a period of twelve (12) months from the date the test results are released.

As an alternative to providing test results, until January 31, 1996, a nonpublic student who has not taken the Iowa Test of Basic Skills may provide an affidavit to the principal of the public school that said student is attending. Said affidavit shall be signed by the student's Primary Education Provider indicating that that provider believes the student would have received a test score that would meet the standard required by law if said test had been administered.

On the date of any extracurricular activity, the nonpublic student participating in such event must attend five (5) full classes on the day of the activity, such classes or permissible school activity may be either the ones for which the student is enrolled in this District and in a nonpublic educational setting. In the latter case, the

nonpublic student's Primary Education Provider shall vouch for the student's attendance in the form and manner acceptable to this District's school administration.

CLASS SIZE/DISENROLLMENT:

Pursuant to I.C. 33-203(1), if enrollment in a specific class or program reaches the maximum for the program, priority for enrollment shall be given to a student who is enrolled full time in the public school. If a class or program is full and includes a part time nonpublic student when a regular full time student transfers into the school during the semester, the District's normal enrollment procedure shall remain the same and the nonpublic student may not be disenrolled to provide space for the full time student. Regular full time students will be given priority for enrollment at the start of each semester.

SCHOOL RULES, REGULATIONS AND POLICIES:

A nonpublic student shall be subject to all the same policies, regulations and school rules as any regularly enrolled student during the times that the nonpublic student is present at school. Such policies, regulations and rules will include but not be limited to, those relating to attendance, grades, prerequisites, classroom conduct and discipline.

PREREQUISITES:

A nonpublic student must meet all prerequisites for enrollment for a program or activity which is required of public school students.

MIXED CURRICULUM:

If a nonpublic student wishes to attend activities or programs in a particular discipline, in a class or grade where the curriculum is merged or integrated, such request shall be made in writing particularizing the subject matter presentment which the student desires to attend (i.e., art instruction in a third grade class). The teacher and principal of that school shall, upon request, provide scheduling information to the nonpublic student. It shall be the nonpublic student's responsibility to contact the District and ascertain when such subject matter will be presented. Where certain subject matter is integrated into a mixed curriculum, no change in the presentation need be made because of a nonpublic student's request for attendance. It is also the intent of this policy to insure that the teacher's right to integrate disciplines and be flexible in planning and modifying the daily classroom presentations shall not be hindered or restricted in any way.

GRADUATION:

A nonpublic student must meet all grade and other graduation requirements of this District in order to graduate and obtain a diploma from the school of this District. In order to graduate and receive a diploma, a student must be a full time student of this District during that student's final year.

IDEA/ADA/SECTION 504 STUDENTS:

Parents who wish nonpublic students to be enrolled in special programs must comply with the requirements of the Individuals With Disabilities Act (IDEA) and the Americans with Disabilities Act (ADA) or Section 504 of the Rehabilitation Act of 1973 (Section 504). If a request for referral is made by said parents

and if the evaluation of the student by the multidisciplinary or child study team determines that special services are appropriate for the student, then such programs will be provided when possible. Until such determination is made, such special educational services or accommodations will not be provided.

Policy Title Head Lice Policy Code No. 516

LICE/NIT POLICY DEFINED:

Any student who is found to have live lice or nits (eggs) will be sent home to be treated with a lice-eliminating product. The student may not return to school until all lice and eggs are completely removed from the hair. Upon returning to school, students will be checked to make certain all evidence of infestation is gone. If lice or eggs are still present, the student will continue to be excluded from school until they are completely clear. Parents will be given information on lice and will be informed of the no-nit policy when the lice and/or nits are initially found. Copies of this policy will be provided at registration for pre-school through 12th grade.

A “NO NIT” policy means:

- ✓ Removing all lice, eggs (nits), and egg cases after treatment with a lice eliminating product.
- ✓ Not allowing a child to attend school until **ALL** nits have been removed.
- ✓ Educating the community to insure that parents understand their responsibility under the “NO NIT” policy.

MANAGEMENT OF PEDICULOSIS (Head Lice)

There are three steps in the management of pediculosis (head lice):

1. Treat with a lice-eliminating product.
2. Nit removal.
3. Environmental clean-up.

PROTOCOL FOR INFESTATION:

- Once a child is identified as being infested, the parent must be contacted immediately to pick up the child at school.
- Parents will be provided with literature available, and the school policy, which explains steps necessary for returning the child to school.
- Notify other schools in the district so those siblings can be checked.
- Record the child’s name, class/teacher and demographic information to help identify potential contagions.
- Alert the child’s teachers as appropriate.

RETURNING TO SCHOOL:

- ✓ An infested child will report to the nurse’s office upon return to school, accompanied by a parent. If lice or nits are found, the child will be returned home until he or she is completely nit-free.
- ✓ The child will be checked daily for seven days, then once a week for a month.

INCIDENT PROCEDURE:

- ✓ First offense: sent home, not a truancy
- ✓ Second offense: charged with a truancy, sent home. Parent must return with the child for re-admission and head check.

- ✓ Third offense: charged with a second truancy, sent home, notices of consequences of a fourth offense are given. Parent must return with the child for re-admission and head check.
- ✓ Fourth offense: charged with third truancy, child is charged with habitual truancy. The Board will make recommendation and decision.

EXPLANATION:

The parent/child will be charged with first offense when a child has been sent home with lice/nits, re-examined and still found to have lice/nits present. The child will be checked every day for seven days; if lice/nits are present, the student will be sent home again.

With the second offense, the child will be sent home and charged with truancy. A parent must return with the child for re-admission and the head check.

On the third offense, the child will be charged with a second truancy and once again sent home. Notice of consequences for a fourth truancy will be given. A parent must return with the child for re-admission and head check.

With the fourth offense, a letter will be sent home informing the parents that they need to appear before the School Board. All information and help available will be given to the parent/guardian when lice/nits are first found and each episode until the problem is resolved.

Policy Title Special Power of Attorney for Guardianship Code No. 517

Pursuant to Idaho Code Title 33, Chapter 14, the Fruitland School District may accept a student for enrollment in the District through utilization of the District's required form of Special Power of Attorney for Guardianship. Idaho law requires that the student make his or her residence and home on a full-time basis with the guardian designated in this Special Power of Attorney form.

The District will only accept a student for enrollment under the Special Power of Attorney for Guardianship if the student is residing with and making his home on a full-time basis with the person designated in the Special Power form. Idaho Law requires that the student make his or her residence and home on a full-time basis with the guardian designated in this Special Power of Attorney form. Additionally, the District will only recognize a Special Power of Attorney for Guardianship using the form adopted by the District, which has been properly executed and notarized. The District may properly refuse enrollment to a student residing with a guardian only on a part-time basis or in any manner other than a full-time residential basis.

A parent or parents executing the District's Special Power of Attorney for Guardianship must have legal authority to delegate parental powers to the guardian under the Special Power. In determining the validity of any proposed special power of attorney, it may be necessary for the District to request and review court orders, decrees, judgments, etc., that may pertain to custody arrangements and legal authority to execute a Special Power of Attorney for Guardianship purposes. There may be situations where a non-custodial parent, lacking legal authority, would attempt to grant a power of attorney for guardianship. Said parent may have no legal right to delegate care and custody issues and therefore may lack legal authority to execute a valid Special Power of Attorney for Guardianship purposes.

For any student enrolled in the District under a Special Power of Attorney for Guardianship, the District will recognize only the guardian designated in the document as having legal authority to access student records, obtain student information, meet with faculty and administration and otherwise act in the place and stead of the parent.

The Fruitland School District will look to the designated guardian as to all matters of legal liability, discipline, and educational concerns with respect to the student. Pursuant to the laws and statutes of the State of Idaho, including but not limited to the Juvenile Corrections Act, Idaho Code Title 20, Chapter 5, the guardian may be subject to jurisdiction of the courts for the students actions, conduct and behavior. The guardian may be subject to court order and restitution to any victim who suffers an economic loss as a result of the student's conduct. The guardian may be subjected to personal liability for monetary sums as may be entered by the court.

Pursuant to the laws and statutes of the State of Idaho, including but not limited to Idaho Code § 6-210, the guardian may be subject to damages incurred by third parties resulting from the student's willful conduct.

This could include medical expenses and other damages resulting from the student's fighting or punching another student.

Any person considering serving as a guardian under a Special Power of Attorney for Guardianship must be fully aware of his or her legal responsibilities regarding the student. Not only will the guardian be responsible for the full-time care and custody of the student, but he or she will also be responsible for all of the educational decisions and issues pertaining to the student's enrollment in the Fruitland School District. Additionally, the guardian may become subjected to civil liability and financial responsibility for the acts, conducts, and behavior of the student. This is not a position to be undertaken lightly. In order to acknowledge the fact that the guardian is aware of these educational and legal responsibilities, the District requires that the guardian review and sign the District's Special Power of Attorney for Guardianship Disclosure Form. This form will be provided by the District Administrative staff. This form is designed to provide information to the guardian regarding the responsibilities in serving as guardian.

Pursuant to Idaho Code § 33-205, the Board of Trustees of Fruitland School District may deny attendance at any schools to any student who is a habitual truant, or who is incorrigible, or whose conduct, in the judgment of the Board, is such as to be continuously disruptive of school discipline, or of the instructional effectiveness of the school, or whose presence in a public school is detrimental to the health and safety of other pupils, or who has been expelled from another school district. Prior to denying enrollment to any student, under a Special Power of Attorney for Guardianship, the Board shall first provide the procedural safeguards set forth in Idaho Code § 33-205 and may be otherwise applicable under the duly adopted policies and regulations of the School District.

Policy Title: Gang Policy

Code No. 518

Introduction: It is the policy of the Fruitland School District that membership in secret fraternities or sororities, or in other clubs or gangs not sponsored by established agencies or organizations, is prohibited.

Gangs which initiate, advocate, or promote activities which threaten the safety or well being of persons or property on school grounds or which disrupt the school environment are harmful to the educational process. The use of hand signals, graffiti or the presence of any apparel, jewelry, accessory, or manner of grooming which by virtue of its color, arrangement, trademark, symbol or any other attribute which implies membership or affiliation with such a group, presents a clear and present danger to the school environment and educational objectives of the community and are forbidden.

Incidents involving initiations, hazing, intimidation and/or related activities of such group affiliations which are likely to cause bodily danger, physical harm, or personal degradation or disgrace resulting in physical or mental harm to students are prohibited.

Any student wearing, carrying, or displaying gang paraphernalia or exhibiting behavior or gestures which symbolize gang membership, or causing and/or participating in activities which intimidate or affect the attendance of another student will be subject to disciplinary action including suspension and expulsion.

1. This policy will be addressed in all school handbooks. At the beginning of the school year, the policy will be discussed with the student body.
2. Disciplinary action for violation of this policy is as follows:
 - First Offense – The student is given detention. The parents will be notified of the infraction of this policy by school administration. The parent meeting will be documented.
 - Second Offense – The student will be suspended 1-3 days. The parents will be notified of the infraction of this policy by school administration. The parent meeting will be documented.
 - Third Offense – The student will be suspended 3-5 days. The parents will be notified of the infraction of this policy by school administration. The parent meeting will be documented.
 - Fourth Offense – The school administration will refer the student to the administration board of review for referral to the Board of Trustees for an expulsion hearing or refer the student directly to the Board of Trustees for an expulsion hearing.
3. Administrators will seek ongoing assistance from the Fruitland Police Department and the Payette County Sheriff's Department in gang activity identification and the names and numbers of local gangs.
4. For the protection of the student and to avoid disruption in the educational process, a student demonstrating evidence of gang activity will be required to not display this type of evidence (see above). e.g., required to change clothing, cover tattoos with band-aides or make-up, fill in eyebrow shave slashes with make-up.

Policy Title: Student Records (Family Education Rights & Privacy Act – FERPA Code No. 519

Under the direction from the Family Education Rights and Privacy Act (FERPA), Fruitland School District will allow parents to inspect, review and copy their student's education records and, if they believe the records to be inaccurate, they may seek to amend them. Parents also have the right to consent to disclosures of personally identifiable information in the record, except under authorized circumstances.

Education records include a range of information about a student that is maintained in any recorded way, handwriting, print, computerized, video, or audio tape. Schools may release information from students' education records with the prior written consent of parents. Fruitland School District reserves the right for teachers and school officials who work with the students and schools to which students apply for entrance to have access to education records without prior consent of the parent. In addition, information from students' records may be released to state and local education officials to conduct audits, or to review records in compliance with Federal laws. The school may also disclose information from education records without the consent of parents in response to subpoenas or court orders.

FERPA gives both parents, custodial and non-custodial, equal access to student information unless the school has evidence of a court order to state law revoking these rights. When students reach the age of 18, or when they become students at postsecondary education institutions, they become "eligible students" and rights under FERPA transfer to them. However, parents retain access to student records of children who are their dependents for tax purposes.

Directory Information

Part of the education record known as directory information, includes personal information about a student that can be made public according to Fruitland School District records policy. Directory information may include a student's name, address and telephone number, and other information typically found in school yearbooks or athletic programs such as pictures of students, participation in extra-curricular activities or recipients of awards, and height and weight of athletes.

The school/district may release directory information as permitted by law, but parents shall have the right to object to the release of information regarding their child. Military recruiters and institutions of higher education may request and receive the names, addresses and telephone numbers of all high school students, unless the parent(s)/guardian(s) notify the school not to release this information.

Policy Title: Medication Administration

Code No: 520

NON-PRESCRIPTION MEDICATIONS:

Non-prescription medications that need to be taken during school hours must be:

- in the original container
- accompanied by a note from the parent/guardian that includes the names of the medication, dose, time to be given, and the signature of the parent/guardian.

The medication dose must follow dosage guidelines recommended on the label, by the P.D.R. (Physician Desk Reference or other drug handbook), doctor or pharmacist.

PRESCRIPTION MEDICATIONS

Prescription medications will only be given to students at school under the following conditions:

- Medication is required during school hours.
- The medication is brought to school in the prescription bottle (container dispensed by the doctor's office or pharmacy.)
- It is accompanied by a ***signed authorization*** from a health care provider authorized to prescribe medications indicating:
 1. name of medication
 2. dose to be given
 3. time to be given
 4. Written authorization from the parent to give the medication.

EXPLANATION OF MEDICATION POLICY

NON-PRESCRIPTION MEDICATIONS

Requiring the medication to be brought in the original container helps to ensure that the medication is what it is supposed to be. The label also provides dosing instructions. A note from the parent/guardian indicates the parents' wishes regarding the medication (time and dose).

If the parents request that the nurse give their child a medication and/or dose that is not within the usual guidelines for children, the nurse cannot give the medication unless the nurse has a doctor's order.

PRESCRIPTION MEDICATIONS

Medications such as antibiotics that are prescribed three times a day can, in most cases, be handled at home—a.m., after school and at bedtime. If medications are prescribed four times a day, at least one dose will have to be given at school.

Rx medications need to be in the prescription bottle because the label contains important information—name of medication, name of doctor, name of patient, dose, instructions, expiration date of medication, etc...

Any prescription medication must be accompanied by a signed authorization from a health care provider authorized to prescribe. In any health care setting, a licensed nurse needs a doctor's order, either written or

verbal, to give medications. The written order could be on a school form or prescription pad. The order can also be faxed to the nurse. In certain situations, the nurse is also willing to accept verbal orders over the phone from health care providers.

The State Board of Nursing, in a ruling dated August 1991, states “Licensed nurses must have orders from a health care provider authorized to prescribe medication prior to the administration of medication. The label on a pharmacy container does not provide legal authorization to administer the medication.”

The parent of the student must request, in writing, that the school district comply with the medication order. A verbal request over the phone would be acceptable.

Self-Administration of Asthma Medication or Epinephrine Auto-Injectors

Pursuant to Idaho Code covering the self-administration of asthma medication or epinephrine auto-injectors, if a parent or legal guardian chooses to have his/her child self-medicate:

1. The parents or guardians of pupil shall provide to the school board or designee written authorization for the self-administration of medication.
2. The parents or guardian of the pupil shall provide to the school board or designee written certification from the physician of the pupil that the pupil has a severe allergic reaction (anaphylaxis), asthma or another potentially life-threatening respiratory illness and is capable of, and has been instructed in, the proper method of self-administration of medication. Such physician or health care provider-supplied information shall contain:
 - a) the name and purpose of the medicine;
 - b) the prescribed dosage
 - c) the time(s) at which or the special circumstances under which medication should be administered;
 - d) the length of time for which medication is prescribed; and
 - e) the possible side-effects of the medicine.
3. Actions to take in the event of an emergency, including if the medication does not improve the child’s breathing or allergic reaction.
 - a) Contact information for the physician and parent/guardian
 - b) List of the child’s asthma triggers or allergies.

The board or board designee will inform the parents or guardians of the pupil in writing that the district and its employees or agents shall incur no liability as a result if any injury arising from the self-administration of medication by the pupil, absent any negligence by the district, its employees or its agents, or as a result of providing all relevant information provided pursuant to subdivisions of this subsection with the school nurse, absent any negligence by the district, its employees or its agents, or in the absence of such nurse, to the school administrator.

The parents or guardians of the pupil shall sign a statement acknowledging that the district shall incur no liability as a result of any injury arising from the self-administration of the medication by the pupil and that the parents or guardians shall indemnify and hold harmless the district and its employees or agents against any claims arising out of the self-administration of medication by the pupil; and

As used in this section:

1. “Medication” means an epinephrine auto-injector, a metered dose inhaler or a dry powder inhaler, prescribed by a physician and having an individual label; and

2. "Self-administration" means a student's use of medication pursuant to prescription or written direction from a physician.
3. A student who is permitted to self-administer medication pursuant to this section shall be permitted to possess and use a prescribed inhaler or epinephrine auto-injector at all times.

Any school employees authorized in writing by the school administrator or principal may assist with self-administration of medication provided that only the following acts are used:

1. verbal suggestions, prompting, reminding, gesturing, or providing a written guide for self-administering medications;
2. handing a pre-filled, labeled medication holder, labeled unit dose container, syringe, or original marked, labeled container from the pharmacy to the student;
3. opening the lid of the above container for the student;
4. guiding the hand of the student to self administer the medication;
5. holding and assisting the student in drinking fluid to assist in the swallowing of oral medications;
6. assisting with removal of a medication from a container for students with a physical disability which prevents independence in the act.

Disposal of Medication

School personnel must either return to the parent or destroy (with permission of the parent or guardian) any unused, discontinued or obsolete medication. Medicine which is not repossessed by the parent or guardian within a seven (7) day period of notification by school authorities will be destroyed by the school nurse in the presence of a witness.

REQUEST FOR GIVING PRESCRIPTION MEDICATIONS DURING SCHOOL HOURS

Idaho State Law states that licensed nurses must have orders from a health care provider authorized to prescribe medication prior to the administration of medications. The label of a pharmacy dispensed container does not provide legal authorization to administer the medication.

It is the policy of the Fruitland School District that any prescription medication that needs to be given during school hours must be in the original prescription bottle with a signed note from the doctor.

Any non-prescription medication that needs to be taken during school hours must be in the original container with a written note from the parents or guardian stating time and dose to be given.

20 U.S.C. § § 4071-4074
Equal Access Act

The McKinney-Vento Homeless Assistance Act ensures that all children and youth who are homeless receive a free appropriate public education and are given meaningful opportunities to succeed in our schools.

Schools in the Fruitland School District will ensure that children and youth who are homeless are free from discrimination, segregation, and harassment.

Information regarding this policy, including the educational rights of children and youth identified as homeless will be distributed to all students upon enrollment and once during the school year, provided to students who seek to withdraw from school, and posted in every school in the district, as well as other places where children, youth, and families who are homeless receive services, including family and youth shelters, motels, campgrounds, welfare departments, health departments, and other social service agencies.

Definitions

Children and youth experiencing homelessness children and youth who are otherwise legally entitled to or eligible for a free public education, including preschool, and who lack a fixed, regular, and adequate nighttime residence, including:

- Children and youth who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, campgrounds, or trailer parks due to a lack of alternative adequate accommodations; are living in emergency or transitional shelters; are abandoned in hospitals; or are awaiting placement in foster care.
- Children and youth who have a primary nighttime residence that is a private or public place not designated for or ordinarily used as a regular sleeping accommodation for human beings.
- Children and youth who are living in a car, park, public space, abandoned building, substandard housing, bus or train station, or similar setting.
- Migratory children and youth who are living in a situation described above.

A child or youth will be considered to be homeless for as long as he or she is in a living situation described above

Unaccompanied youth means a youth not in the physical custody of a parent or guardian, who meets the definition of homeless as defined above. The more general term youth also includes unaccompanied youth.

Enroll and *enrollment* means attending school and participating fully in all school activities.

Immediate means without delay.

Parent means a person having legal or physical custody of a child or youth.

School of origin means the school the child or youth attended when permanently housed or the school in which the child or youth was last enrolled.

Local liaison is the staff person designated by our district and each district in the state as the person responsible for carrying out the duties assigned to the local homeless education liaison by the McKinney-Vento Homeless Assistance Act.

Identification

Children and youth identified as homeless in the district, both in and out of school will be identified.

Data will be collected on the number of children and youth experiencing homelessness in the district; where they are living; their academic achievement delays, interruptions in their education, or school transfers.

School Selection

Each child and youth identified as homeless has the right to remain at his or her school of origin or to attend any school that houses students who live in the attendance area in which the child or youth is actually living.

Therefore, in selecting a school, children and youth who are homeless will remain at their schools of origin to the extent feasible, unless that is against the parent or youth's wishes. Students may remain at their schools of origin the entire time they are homeless and until the end of any academic year in which they become permanently housed. The same applies if a child or youth loses his or her housing during the summer.

Services that are required to be provided, including transportation to and from the school of origin and services under federal and other programs, will not be considered in determining feasibility.

Enrollment

Enrollment may not be denied or delayed due to the lack of any document normally required for enrollment, including:

- Proof of residency
- Transcripts/school records (The enrolling school must contact the student's previous school to obtain school records. Initial placement of students whose records are not immediately available can be made based on the student's age and information gathered from the student, parent, and previous schools or teachers.)
- Immunizations or immunization/health/medical/physical records (If necessary, the school must refer students to the local liaison to assist with obtaining immunizations and/or immunization and other medical records.)
- Proof of guardianship
- Birth certificate
- Unpaid school fees
- Lack of clothing that conforms to dress code
- Any factor related to the student's living situation

Unaccompanied youth must be enrolled immediately in school. They may either enroll themselves or be enrolled by a parent, non-parent caretaker, older sibling, or local liaison.

Transportation

Parents and unaccompanied youth will be informed of this right to transportation before they select a school for attendance. At a parent's or unaccompanied youth's request, transportation will be provided to and from the school of origin for a child or youth

experiencing homelessness. Transportation will be provided for the entire time the child or youth has a right to attend that school, as defined above, including during pending disputes.

It is this district's policy that inter-district disputes will not result in a homeless student missing school. If such a dispute arises, the district will arrange transportation and immediately bring the matter to the attention of the state coordinator for the Education of Homeless Children and Youth. In addition to receiving transportation to and from the school of origin upon request, children and youth who are homeless will also be provided with other transportation services comparable to those offered to house students.

Services

Children and youth experiencing homelessness will be provided services comparable to services offered to other students in the selected school, including:

- Transportation
- Title I, Part A services – Children and youth identified as homeless are automatically eligible for Title I, Part A services, regardless of what school they attend
- Educational services for which the student meets eligibility criteria, including special education and related services and programs for English language learners
- Vocational and technical education programs
- Gifted and talented programs
- Before- and after-school programs
- Pre School – LEA will ensure that children identified as homeless receive priority enrollment in preschool programs operated by the district, including exempting homeless children from waiting lists. Homeless children with disabilities will be referred for preschool services under the Individuals with Disabilities Education Act (IDEA). The local liaison will collaborate with Head Start and other preschool programs.
- Free meals – On the day a child or youth identified as homeless enrolls in school; the enrolling school must submit the student's name to the LEA Food Service office for immediate processing.

When applying any district policy regarding tardiness or absences, any tardiness or absence related to a child or youth's living situation will be excused.

Disputes

If a dispute arises over any issue covered in this policy, the child or youth experiencing homelessness will be admitted immediately to the school in which enrollment is sought pending final resolution of the dispute. The student will also have the rights of a student who is homeless to all appropriate educational services, transportation, free meals, and Title I, Part A, services while the dispute is pending.

The school where the dispute arises will provide the parent or unaccompanied youth with a written explanation of its decision and the right to appeal and will refer the parent or youth to the local liaison immediately. The local liaison will ensure that the student is enrolled in the requested school and receiving other services to which he or she is entitled and will resolve the dispute as expeditiously as possible. The parent or unaccompanied youth will be given every opportunity to participate meaningfully in the resolution of the dispute. The local liaison will keep records of all disputes in order to determine whether particular issues or schools are repeatedly delaying or denying the enrollment of children and youth identified as homeless. The parent, unaccompanied youth, or school district may appeal the school district's decision as provided in the state's dispute resolution process.

Training

The local liaison will conduct training regarding Title X requirements and sensitivity/awareness activities for all LEA staff.

Coordination

The local liaison will coordinate with and seek support from the state coordinator for the Education of Homeless Children and Youth, public and private service providers in the community, housing and placement agencies, the LEA transportation department, local liaisons in neighboring districts, and other organizations and agencies. Coordination will include conducting outreach and training to those agencies. Both public and private agencies will be encouraged to support the local liaison and our schools in implementing this policy.

Policy Title: Disciplining Students with Disabilities (Section 504)

Code No: 527

This policy addresses disciplining students with disabilities, as defined by Section 504 of the 1973 Rehabilitation Act. For those students with disabilities under the Individuals with Disabilities Education Act (IDEA), the disciplinary procedures required by the IDEA will be followed. In the event a student has disabilities under both Section 504 and the IDEA. The IDEA policy shall be followed in determining appropriate disciplinary actions.

SUSPENSION

A student with a disability, as defined by Section 504 of the 1973 Rehabilitation Act, may be suspended for not more than ten (10) consecutive school days per incident.

Whenever a school considers suspending a student with a disability for more than ten (10) cumulative school days in a school year, a 504 team will be convened to determine if the cumulative suspensions constitute a significant change in placement by reviewing the following factors:

1. Whether the misconduct for which the student was suspended on the last occasion was substantially similar to the previous occasions;
2. The length of each suspension;
3. The proximity of the suspension to one another; and
4. The total amount of time the student is excluded from school.

The 504 team will consist of individuals who are knowledgeable about the student, the student's school history, the student's individual needs, the evaluation data, and the placement options.

If the 504 team determines that the exclusion would constitute a significant change in placement, the school will conduct a manifestation determination as set forth below.

EXPULSION

Prior to submitting an expulsion recommendation to the board of trustees for any student with a disability as defined by Section 504 of the 1973 Rehabilitation Act, a 504 team will make a "manifestation determination." A manifestation determination involves a review of the student's misconduct, the student's disability and the services provided to determine:

1. Was the conduct in question caused by, or did it have a direct and substantial relationship to, the student's disability?
2. Was the conduct in question the direct result of the district's failure to implement the 504 plan?

In reviewing the questions set forth above, the 504 team will review information regarding the student's disability that is recent enough to afford an understanding of the student's current behavior. In the absence of reasonably current information about the student's disability, the school district will conduct or cause to be conducted additional evaluation(s) regarding the student's disability before making the manifestation determination. If either manifestation determination question answer is "yes," the student will not be expelled. However, the 504 team may determine that a placement change is necessary for that student.

If the answers to both the questions set forth above are "no," the school may proceed with the recommendation of expulsion to the board in the same manner as for similarly-situated students who do not have disabilities.

If the student's parent/guardian disagree with the 504 team's determination of the manifestation determination, a hearing may be requested under this district's Section 504 hearing procedure. Although the parent/guardian may disagree with the manifestation determination findings, the student may be expelled after following the proper procedures. Educational services may cease after expulsion.

Policy Title: Model Student Data Privacy & Security

Code No. 529

The efficient collection, analysis, and storage of student information is essential to improve the education of our students. As the use of student data has increased and technology has advanced, the need to exercise care in the handling of confidential student information has intensified. The privacy of students and the use of confidential student information is protected by federal and state laws, including the Family Educational Rights and Privacy Act (FERPA) and the Idaho Student Data Accessibility, Transparency and Accountability Act of 2014 (Idaho Data Accountability Act).

Policy Title School Wellness Code No. 530

In accordance with the Child Nutrition and WIC Reauthorization Act of 2010, the Fruitland School District has established a school wellness policy for all schools. It includes goals for nutrition education, physical activities, and other school-based activities designed to promote student wellness; nutritional guidelines selected by the school district for all foods available on each school campus during the school day. The guidelines assure that reimbursable school meals will not be less restrictive than federal guidelines; and establishment of a plan to measure the implementation of this policy.

The Fruitland School District, to assist our students in establishing life-long healthy eating and exercise patterns in order to achieve his or her full academic potential, sets forth the following goals and guidelines:

GOALS

Nutrition education goals are to:

- Continue the 7th and 8th grade implementation of one quarter of health instruction per year
- Provide parent nutrition education materials at each school as well as being included in Food Service's menu.
- Provide parent nutrition education as requested, which will include school lunch nutritional information upon request.
- Continue the High School implementation of one credit of health instruction required for graduation.

Physical activity goals:

- Continue implementation of 45 minutes per week of physical education at the elementary school.
- Continue the Middle School implementation of forty-five (45) minutes per day of physical activity.
- Continue to require the one credit of High School physical education for graduation.
- Continue to promote involvement in physical activities that encourage lifelong physical activity.

Other school-based activities goals:

- Promote school wide wellness goals
- Encourage elementary school parents to supply healthy snacks for classroom parties through parent education.
- Encourage schools to provide incentives for positive behavior that are non-food items or that meet the nutritional guidelines as outlined in the nutritional guidelines.
- Promote healthy or non-food fundraising items throughout the district. Food items should follow the nutritional guidelines as outlined in the nutritional guidelines section.
- Encourage participation in extra-curricular physical activities at all school levels.
- Encourage student consumption of nutrient dense foods, i.e. whole grains, fresh fruits, and vegetables through posters, educational materials, and classroom education.

NUTRITIONAL GUIDELINES:

In accordance with the July 1, 2014 Smart Snack standards; all foods and beverages sold to students on campus must meet the following criteria: with Foods and/or beverages offered at school-sponsored events outside the school day, (i.e. concessions) will be exempt from the wellness policy; but are encouraged to also offer healthy choices as well.

A. Food

Any food sold in schools (two hours prior to school, throughout the school day and for 30 minutes following the release of students) **must:**

1. Be a "whole grain-rich" grain product: or
2. Have as the first ingredient a fruit, a vegetable, a dairy product, or a protein for: or
3. Be a combination food that contains at least ¼ cup of fruit and/or vegetable; or
4. Contain 10 % of the Daily value (DV) of one of the nutrients of public health concern in the 2010 Dietary Guidelines for Americans (calcium, potassium, vitamin D or dietary fiber).

Foods must also meet several nutrient requirements:

1. **Calorie limits:**

Snack items: ≤ 200 calories

Entrée items: ≤ 350 calories

2. Sodium limits:

Snack items: ≤ 230 mg (until July 1, 2016)

Entrée items: < 480 mg

3. Fat limits:

Total fat: ≤ 35% of calories

Saturated fat: < 10% of calories

Trans fat: zero grams

4. Sugar limits:

≤ 35% of weight from total sugars in foods.

- All accompaniments such as cream cheese, salad dressing and butter must also be included in the nutrient profile as part of the item sold. This will help control the amount of calories, fat, sugar and sodium that could be added to foods.

*All fundraisers that meet the nutritional guidelines are allowed at any time. Fundraisers that happen during off school grounds are also allowed. The State of Idaho is allowing each 10 exempted fundraisers per year.

- Other flavored and/or carbonated beverages (≤12 fl oz) that are labeled to contain ≤40 calories per 8 fl. oz, or ≤60 calories per12 fl oz

All guidelines for reimbursable school meals shall not be less restrictive than regulations and guidance issued by the Secretary of Agriculture pursuant to subsections (a) and (b) of Section 10 of the Child Nutrition Act (42 U.S.C. β 1779) and Sections 9(f)(1) and 17(a) of the Richard B. Russell National School Lunch Act (42 U.S.C. β β 1758(f)(1) and 1766(a)), as those regulations and guidance apply to schools.

One (1) or more persons at each school building shall be designated to ensure that staff, club advisors, and student groups are making informed choices in compliance with the wellness policy.

Additionally, students participating in one season in any sport recognized by the Idaho High School Activities Association or club sport recognized by the District, or 18 weeks of a sport recognized by the District may choose to substitute participation up to one credit of physical education.)

Middle School Credit

If a middle school student completes any required high school course with a grade of C or higher before entering the 9th grade, and if that course meets the same standards that are required in high school and the course is taught by a teacher certified to teach high school content then the student has met the high school content area requirement for such course. The student shall be given a grade

for the successful completion of that course and such grade and the number of credit hours assigned to the course shall be transferred to the student's high school transcript and the student's parent or guardian shall be notified in advance when credits are going to be transcribed. However, the student's parent or guardian may elect to not have the credits and grade transferred to the student's high school transcript. The student still must complete the required number of credits in all high school core subjects identified above in addition to the courses completed in middle school, unless the student is a participant in the 8 in 6 Program.

College Entrance Examination

A student must take one of the following college entrance or placement examinations before the end of the student's 11th grade year: COMPASS, ACT, or SAT.

A student may elect an exemption in their 11th grade year from the college entrance exam requirement if the student is:

1. Enrolled in a special education program and has an Individual Education Plan that specifies accommodations not allowed for a reportable score on the approved tests;
2. Enrolled in a Limited English Proficient program for three academic years or less;
3. Enrolled for the first time in grade 12 at an Idaho high school after the spring statewide administration of the college entrance exam; or
4. Eligible to take an alternative assessment. In this case the student may instead take the ACCUPLACER placement exam during their senior year.

A student who misses the statewide administration of the college exam during the student's 11th grade year may instead take the examination during his or her 12th grade year if the student:

1. Transferred to an Idaho school district during his or her 11th grade year;
2. Was homeschooled during his or her 11th grade year; or
3. Missed the spring statewide administration of the college entrance exam for a documented medical reason.

Senior Project

A student shall complete a senior project that includes a written report and oral presentation by the end of grade 12.

Civics Test

Beginning with the class of 2017, all secondary students must successfully pass the civics test or alternate path. "Civics test" as used herein means the 100 questions used by officers of the United States citizenship and immigration services as a basis for selecting the questions posed to applicants for naturalization.

The District will determine the method and manner in which to administer the civics test. A student may take the civics test, in whole or in part, at any time after enrolling in grade 7 and may repeat the test as often as necessary to pass the test. The District will document on the student's transcript that the student has passed the civics test.

The applicability of this requirement for students who receive special education services will be governed by the student's Individualized Education Plan.

Waiver of Requirement

Graduation requirements generally will not be waived under any circumstances. However, in rare and unique hardship circumstances, the principal may recommend, and the Superintendent may approve, minor deviation from the graduation requirements.

Alternative Programs

Credit toward graduation requirements may be granted for planned learning experiences from accredited programs, such as summer school, college and university courses, correspondence courses, and online/virtual courses.

Credit for work experience may be offered when the work program is a part of and supervised by the school.

All classes attempted at Fruitland High School and all acceptable transfer credits shall be recorded on the transcript. All grades earned, including failures and retakes, shall be recorded as such and utilized in the calculation of Grade Point Average (GPA) and class rank. Credit shall be awarded only once regardless of repetition of the course.

Class Rank (GPA)

Class rank is compiled from semester grades. Courses not eligible for GPA are designated with an asterisk on the report card.

Early Graduation

A student who completes all of the graduation requirements set forth by the District and the State Department of Education prior to the completion of eight semesters of school attendance in grades 9 through 12 may petition the Superintendent and Board for early graduation by submitting such a petition to the Superintendent through the building principal. The Superintendent shall submit the petition to the Board for endorsement and approval at the end of the quarter preceding the requested graduation date.

The Superintendent is authorized to create any procedures necessary to assist students to achieve early graduation as well create incentives for participation in any early graduation program. Existing programs providing incentives to complete coursework early are described in Policy 2435 Advanced Opportunities.

Policy Title Alternative Graduation Requirements Code No. 604.2

The Fruitland School District School Board adopted the following policy regarding Alternative Graduation Requirements based on recommendations from the Idaho State Board of Education.

Students who do not demonstrate mastery of the state standards by passing any portion of the ISAT at the end of the 10th grade year may exhibit mastery through the following process:

1. Juniors who have not reached proficiency will be enrolled in the PLATO-based ISAT preparation program. The focus of this program will be to improve skills, in order to reach proficiency on the ISAT during the four testing opportunities during the junior year. When a student demonstrates proficiency on the ISAT, he/she may leave the preparation program.
2. A student who has not demonstrated proficiency by the beginning of the senior year may seek an alternative method of demonstrating mastery of the state standards. The senior will be required to submit documentation that he/she has taken advantage of the opportunity to build skills through the PLATO program, and has taken the ISAT on all possible test dates during the junior year. The student will also continue to take the ISAT on all possible test occasions during the senior year.
3. A student who is approved by the board of trustees for alternate assessment will be required to submit a portfolio for any subject area in which the student has not reached proficiency as measured on the ISAT. This portfolio will consist of documentation that **at least 75% of the state power standards for that subject area have been mastered at the 10th grade level, as completed in the PLATO learning program.**

Rationale

The RIT score required for proficiency on the ISAT is approximately 75% of the highest possible RIT score for each subject area.

The PLATO curriculum has been aligned to Idaho state standards; it has undergone determination of validity and reliability; it includes instruction, assessment, and record keeping components; and it is based 100% on academic proficiency and performance.

Policy Title Extended School Year Guidelines Code No. 611.1

DEFINITION

"Extended School Year" (ESY) is considered to be required educational or support services for special education students, provided by the local school district during breaks in instruction.

The need for ESY shall be dictated by the student's IEP and is based on the determination that without extended school year services, the student would regress to such an extent and have such limited recoupment ability that he/she would be unable to benefit from his/her special education program.

Extended school year programs are at no cost to parents for every eligible student.

DEVELOPMENT

To clearly separate ESY services from those provided during the regular year, a new ESY specific IEP shall be developed.

The deadline for generation of ESY / IEP's shall be May 15th.

However, the district reserves the right to remain flexible in granting consideration for ESY programs after the determined deadline date.

ELIGIBILITY

To receive ESY services, the student must be identified as handicapped and currently receiving special education and/or related services as defined by an IEP.

The ESY IEP shall be effective only for the immediate period of interruption. The provision of ESY for the immediate period of interruption does not imply that ESY will be required for subsequent periods.

Determination of the need for ESY for each pupil shall be made by the Child Study Team based on one or more of the following:

1. Empirical data maintained on the child, including IEP data.
2. Educational, medical, and/or psychological records of the student.
3. Reports provided by parents, teachers, therapists and others who have worked with the child.
4. Few, if any, gains during the regular school year, and it is believed that with an ESY program services the student could make reasonable gains.

5. Failure to maintain an acquired critical skill that leads to independence or decreased dependence on caregivers. In this case, programming shall be designed to provide for maintenance of existing critical skills.
6. Circumstances which result in the loss or a severe limitation of the pupil's capacity and potential to acquire a critical skill; i.e., hospitalization, additional trauma or acceleration of a degenerative condition. In this case, ESY provides for the continued development or acquisition of a critical skill to prevent the anticipated loss or limitation.

ASSESSMENT

Recommended sources for information for determining whether a handicapped student requires extended school year services shall include one or more of the following:

1. Assessment information maintained on the student, including pretest and post-test data;
2. Current IEP and pertinent curricula information;
3. Progress reports maintained by teacher, therapist and others having direct contact with the student before and after breaks in educational programming;
4. Educational, medical or psychological records of the student from public and private sources;
5. Prognosis or opinions of educators, medical personnel, parents and others who work with the student;
6. Achievement of goals on successive IEP's;
7. Reports by parents of negative changes in adaptive behaviors over extended break periods;
8. Progress reports of teachers contrasting present and previous levels of achievement;
9. Medical and other agency reports indicating degenerative type difficulties which become exacerbated during breaks in educational programming.

MODEL

The type and length of the ESY program which a student requires shall be decided on an individualized basis.

Policy Title Bomb Threat Procedure

Code No. 613

Being responsible for the safety of the large number of students, teachers and other staff personnel, it is incumbent upon school administrators to do all that is prudent and possible in the event of imminent danger. Therefore, we must regard any bomb threat as a real danger to the lives and safety of all persons in a building which receives a bomb threat.

It is the greatest importance that each staff member cooperate to the best of his/her ability in the event of a bomb threat.

The following procedures will go into effect as soon as it is known that a bomb or lethal explosive device exists or is reported to exist in our building.

(1) The secretary or any other person taking the telephone call will attempt to gain all possible information from the caller. This information would include the site of the bomb and when it will explode, the sex, approximate age, voice tone, and the exact threat of the caller.

(2) Immediately upon receiving a call and obtaining all of the information you can, hang up the phone, then pick it up, get a dial tone on that same line, and press *57. (The * is right under the 7 key.) A recording will tell you if the call has been traced. Contact Farmer's Mutual Telephone Company at 452-4241. If the recording says that the call cannot be traced, contact the telephone company to find out what town the call came from.

(3) This information should be given immediately to the building principal. The superintendent of schools is also to be notified at this time.

(4) The building principal or the one in charge will ensure a final check of all areas of the building to make certain that all persons have been notified and have left the building.

(5) Staff members will take roll call and make certain that no student reenters the building for any reason. Names of missing students will be given to the building principal.

(6) Teachers and other staff members will quickly check their own teaching stations or areas (while the students are exiting) for any strange-looking items, such as brief bags, boxes or packages which have not been normally located within their area of responsibility.

(7) The building principal and custodian on duty will meet with the investigative officers when they arrive in order to clarify search procedures.

(8) If a dismissal decision is made, buses will be called and the students of the threatened school will be taken to their homes.

(9) Building searches for bomb or explosives will be conducted by the building principal, the custodians on duty, and investigating officers who have been called to the school.

Seniors not meeting the requirements for graduation may complete these requirements within one year of their class's graduation and will be granted a Fruitland High School diploma, but will not be included in the next years ceremony. Credits needed after the senior year must be earned through summer school, alternative school, or correspondence study; fifth-year students will not be enrolled at Fruitland High School.

Policy Title Driver Training Policy

Code No. 615

The Driver's Education Program policy is to take the oldest students who sign up for the program. As there are a large number of students who are in need of this extra-curricular service, a sign-up sheet is posted in the High School two weeks prior to the program's start. As each session can only accommodate 30 students, the list is used as the basis of filling the class list. Student's names are not taken on a first-come-first-served basis, but on an oldest in age priority. Students who may be older, but fail to sign up within that time frame will have to wait until the next session. Students in school will be notified by means of the announcements. Those home schooled students living in the school district will need to check with the school for sign-up times. Out of district students will not be considered. NO exceptions to the age priority will be made.

Students are advised NOT TO PURCHASE A DRIVER TRAINING PERMIT OR PAY THE CLASS FEE UNTIL THEY HAVE BEEN NOTIFIED THAT THEY HAVE BEEN ACCEPTED INTO THE CLASS. A list of students accepted into the program will be posted in the High School prior to the program beginning. A letter will be sent to advise the students of the procedures, requirements and deadlines for the purchase of permits and the payment of fees.

The Driver Education Program conforms to all the Fruitland District and State of Idaho requirements for Driver's Education/Traffic Safety Education. This program is run as a service to the community. IT IS NOT A REQUIREMENT OF THE STATE BOARD OF EDUCATION THAT IT BE OFFERED TO ANY STUDENT AT ANY TIME AS A PART OF THE REGULAR EDUCATIONAL CURRICULUM. Driver's training is offered to those who meet the requirements within the scheduled time frame.

Because the Idaho State requirements for Driver Education include a minimum of 30 classroom hours, 6 hours behind-the-wheel time and 6+ hours of observation time, ATTENDANCE IS MANDATORY. Failure to attend class or driving will constitute failure of the class. The instructor must give the student a classroom grade, a driving skills grade and an attitude grade. Failure in any of these three areas will constitute failure of the class. Missing one (1) class without prior notification to the instructor or missing two (2) classes with notification to the instructor or four (4) tardies will constitute failure of the class. Vehicles are rented and returned within a specified time slot, therefore, failure to complete the driving within the specified time frame will constitute failure for the class.

There needs to be a clear and solid commitment of both parent and student in order for the student to finish the class. There will be no refund of class fees after the first day of class. All students and their parents MUST be firmly committed to arranging their schedules to be able to complete this program. If you CANNOT make this commitment, DO NOT sign up for the class. In order to successfully complete this class, ALL students must drive both during the week and on some weekends. ALL students must be flexible in their time scheduling. We would like to accommodate everyone and their needs, but you must be willing to cancel other interests, if necessary, to finish the class. There are some areas which may be flexible, but by law, we cannot disallow any part of the program. If my schedule will allow it, I will make up missed drives, but YOU will pay a fee of \$24.00 for a lesson. If you miss a drive and are not able to schedule another time, you will not pass the class and will have to take the whole class again.

As you can see, it is absolutely essential that both students and parents make a solid commitment to this program.

Policy Title: Section 504 Procedures for Students with Disabilities

Code No. 621

It is the responsibility of this district to identify and evaluate students in need of special services or programs in order that such students may receive the required free appropriate education pursuant to the provisions of Section 504 of the Rehabilitation Act of 1973.

For the purposes of this policy, a student who may need special services or programs pursuant to Section 504 is one who has a physical or mental impairment that substantially limits the student's ability to participate in or benefit from the district's educational programs.

Students may be eligible for services under the provisions of Section 504 even though they do not require services pursuant to the Individuals with Disabilities Education Act (IDEA). Students who are identified as individuals with exceptional needs, according to IDEA criteria, are not addressed under this policy. The needs of such students are provided for under district policy and under state and federal laws and regulations.

Each qualified person within the district who is eligible to receive regular or special education or related aids or services, regardless of the nature or severity of the condition necessitating such programs or services, shall receive a free appropriate education in the district.

IDENTIFICATION AND REFERRAL PROCEDURES

Any student who needs or is believed to need special education or related aids and services not available through existing programs in order to receive a free appropriate public education may be referred by a parent, teacher, or other certificated school employee to the Multi-disciplinary team (*MDT*) for identification and evaluation of the student's individual education needs.

The *MDT* will be composed of persons knowledgeable about the student, the student's school history, the student's individual needs, the meaning of evaluation data, and the placement options. Each building principal will monitor the composition of the *MDT* to ensure that qualified personnel participate.

The *MDT* will consider the referral and, based upon a review of the student's existing records, including academic, social, and behavioral records, make a decision as to whether an evaluation under this procedure is appropriate. If a request for evaluation is denied, the *MDT* will inform the parents or guardian of this decision and of their procedural rights.

EVALUATION

Evaluation of the student and formulation of a plan of services will be carried out by the *MDT* according to the following procedures:

1. The *MDT* will evaluate the nature of the student's disability and the impact of the disability upon the student's ability to participate in or benefit from the district's educational programs. This evaluation will include consideration of any behaviors that interfere with regular participation of a student who otherwise meets the criteria (such as age) for participation in the educational program and/or activities.
2. The *MDT* shall consider all relevant information on the student to determine whether he or she is disabled under Section 504. Information may include reports from physicians, observations from parents, teachers, and/or school personnel, results of standardized aptitude and achievement tests, comprehensive assessments conducted by this district's professional staff and other relevant evaluation material, as appropriate. The information will also include consideration of the student's behavior.

In order to ensure that the *MDT*'s interpretation of evaluation data and placement decision is consistent with federal law, the *MDT* shall:

1. draw upon information from a variety of sources, including aptitude and achievement tests, teacher recommendations, physical condition, social or cultural background, and adaptive behavior;

2. document that the information obtained from all sources is carefully considered;
3. ensure that the *MDT* team's placement decision is made by a group of persons, including persons knowledgeable about the student, the meaning of the evaluation data, and the placement options; and
4. ensure that the placement decision provides appropriate academic and nonacademic settings.

No final determination of whether the student will or will not be identified as a disabled individual within the meaning of Section 504 will be made by the *MDT* without first inviting the parent or guardian of the student to participate in a meeting concerning such determination.

A final decision will be made by the *MDT* in writing, and the parents or guardian of the student shall be notified of the Section 504 procedural safeguards available to them, including the right to an impartial hearing and review.

WRITTEN PLAN FOR SERVICES

For a student who has been identified as disabled within the meaning of Section 504 and in need of special education or related aids and services, the *MDT* shall be responsible for determining what is needed. In making such determination, the *MDT* shall consider all available relevant information, drawing upon a variety of sources, as set forth in the Evaluation section of this policy.

The parents or guardian shall be invited to participate in *MDT* meetings where services for the student will be determined, and shall be given an opportunity to examine all relevant records.

The *MDT* will develop a written plan describing the disability and the special education or related aids and services needed. The plan will specify how the regular or special education and related aids and services will be provided, and by whom.

The team may also determine that no special education or related aids and services are appropriate. If so, the record of the *MDT* proceedings will reflect the identification of the student as a disabled person and the basis for the decision that no special services are presently needed.

A disabled student shall be placed in the regular educational environment of the district, with the use of the supplementary aids and services, unless the district demonstrates that such placement cannot be achieved satisfactorily. The disabled student shall be educated with those who are not disabled to the maximum extent appropriate to the individual needs of the student.

The *MDT* shall notify the parent or guardian in writing of its final decision concerning the services to be provided.

All teachers of students with disabilities shall be provided with information in sufficient detail to address the individual needs of each student with a disability.

REVIEW OF THE STUDENT'S PROGRESS

The *MDT* will monitor the progress of the disabled student and the effectiveness of the student's education plan annually to determine whether special education or related aids and services are appropriate and necessary, and that the disabled student's needs are being met as adequately as the needs of non-disabled students.

Prior to any subsequent significant change in placement, a comprehensive reevaluation of the student's needs will be conducted.

PROCEDURAL SAFEGUARDS

The parents or guardians shall be notified in writing of all *MDT* decisions concerning the identification, evaluation, or educational placement of students made under this policy.

The parents or guardian shall be notified that they may examine relevant records.

As to such decisions by the *MDT*, the parents or guardian shall have the right to an impartial hearing, with the opportunity for participation by the parents or guardian and their counsel.

The request for a hearing shall be made in writing and addressed to:

Policy Title Safety Busing Code No. 703.2

Safety busing is the transportation of a student who lives less than one and one-half (1 ½) miles from school when, in the judgment of the Board of Trustees, the age or health or safety of the student(s) warrant such action.

The Board of Trustees will only consider requests for safety busing for students living less than one and one-half (1 ½) miles from school when one or more of the following criteria are met:

1. Unsupervised crossing of a heavily traveled multi-lane roadway requiring beyond-age-level comprehension of complex traffic hazards;
2. Walking along an arterial road and highway permitting fifty-mile-per-hour speeds;
3. Crossing an intersection in competition with a high volume of right turning vehicles without the benefit of adult supervised crossing;
4. Walking in the traffic lane of an arterial or collector street because of the absence of sidewalks or usable shoulders which are at least three (3) feet wide;
5. Walking beside or over unprotected waterways;
6. Walking routes which are temporarily interrupted by major road construction, building construction, or utility construction;
7. Walking routes interrupted by numerous high traffic volume business driveways;
8. Other unique circumstances or extraordinary factors
9. Railroad tracks

The existence of any of the above criteria does not automatically qualify an area for safety busing. The Board of Trustees may also consider evaluation factors including but not limited to: traffic count, traffic gap times, posted speed, width of roadway, width of walking area, length of time student would be exposed to area of concern, age of pupils, number of pupils, and traffic control signs and markings, as well as written comments from parents, patrons, and school personnel prior to a vote on the issue. Further, the Board of Trustees shall consider the criteria set out in its measuring and scoring instrument which by this reference is incorporated and attached to this policy as Exhibit 1.

Each year, no later than the regular board meeting in August, the Board of Trustees shall review and vote on all requests for new safety busing locations. The Superintendent or their designee is directed to review all existing safety busing locations at intervals of at least every three years.

Policy Title **Purchasing** Code No. 803

Authorization and Control

It is the policy of this District to conduct its purchasing program in a manner to assure the best utilization of District funds. The Board, or its designee, reserves the right to determine what is in the best interest of the District.

The Superintendent is authorized to direct expenditures and purchases within the limits of the detailed annual budget for the school year and pursuant to state purchasing and federal procurement requirements. Board approval for purchase of capital outlay items is required when the aggregate total of a requisition exceeds \$10,000 except the Superintendent shall have the authority to make capital outlay purchases without advance approval when it is necessary to protect the interests of the District or the health and safety of the staff or students.

The Superintendent shall establish requisition and purchase order procedures as a means of controlling and maintaining proper accounting of the expenditure of funds that align with state purchasing and federal procurement requirements. Staff members shall not obligate the District without express authority. Staff members who obligate the District without proper authorization may be held personally responsible for payment of such obligations.

Bids and Contracts

With the exception of the purchase of curricular materials, whenever the cost of any construction, repair, or improvement; or the acquisition, purchase, or repair of any equipment; or other personal property necessary for the effective operation of the District exceeds fifty thousand dollars (\$50,000.00), formal bids shall be called for by issuing public notice as specified in statute as well as following federal procurement requirements. Specifications shall be prepared and be made available to all vendors interested in submitting a bid. The contract shall be awarded to the lowest responsible bidder, except that the trustees may reject any bid, reject all bids, and publish notice for bids once again. If after calling for bids a second time, no satisfactory bid is received, the Board may proceed under its own direction, subject to the approval of the State Board of Education.

In determining what bid is the lowest responsible bidder, the District will not only take into consideration the amount of the bid. The District will also consider the skill, ability, and integrity of a bidder to do faithful and conscientious work and promptly fulfill the contract according to the letter and spirit. References for the bidder should be contacted.

The Superintendent shall establish bidding and contract awarding procedures that align with state purchasing and federal procurement requirements.

Cooperative Purchasing

The District may cooperatively enter into contracts with one or more districts to purchase materials necessary or desirable for the conduct of the business of the District provided that the purchasing cooperative follows state purchasing and federal procurement requirements.

Personnel Conflicts of Interest

No employee will make any purchase or incur any obligations for or on behalf of the District from any private business, contractor, or vendor in which or with which the employee has a direct or indirect financial or ownership interest.

Purchases or contracted services from any private business or venture in which any employee of this District has a direct or indirect financial or ownership interest will be made on a competitive bid basis strictly in accordance with the following procedures:

1. The interested employee, the business, the contractor, or the vendor will fully disclose, in writing, the employee's exact relationship to the business, the contractor, or the vendor;
2. The affected business, the contractor, or the vendor may submit a bid in compliance with the specifications outlined by the District;
3. The interested employee will not be involved in any part of bidding process, including but not limited to, preparing specifications, advertising, analyzing, or accepting bids; and
4. This policy will apply to any organization, fund, agency, or other activity maintained or operated by the District.

No employee will solicit gifts, gratuities, favors, prizes, awards, merchandise, or commissions as a result of ordering any items or as a result of placing any purchase order with a business, contractor, or vendor on behalf of the District nor accept anything of monetary value from a business, contractor, or vendor except for unsolicited gifts of \$50 or less in value.

Procurement Under a Federal Award

In addition to the conflicts of interest outlined above, no employee, officer, or agent of the District may participate in the selection, award, or administration of a contract supported by a federal award if he or she has a real or apparent conflict of interest. Such conflicts of interest include instances where any of the following has a financial or other interest in or a tangible personal benefit from a firm considered for a contract:

1. The employee, officer, or agent;
2. Any member of his or her immediate family, including spouses, children and parents;
3. His or her partner. For the purposes of this policy, "partner" shall mean an adult of the same sex or different sex with whom the employee, officer, or agent shares a non-marital intimate relationship and a common residence and with whom they mutually affirm that they share responsibility for each other's common welfare; or
4. An organization which employs or is about to employ any of the parties listed above.

The following activities are prohibited:

1. The purchase during the school day of any food or service from a District contractor or vendor for individual use;
2. The removal of any food, supplies, equipment, or school property without proper authorization;
3. Individual sales by District personnel of any school property, including used items.

Violations

Any District officer, employee, or agent who violates this policy may be subject to disciplinary action, including but not limited to a fine, suspension, or termination. Violations of law will be referred to the local, state, or federal authority having proper jurisdiction.

Policy Title: Positive Time Reporting

Code No. 809

Many programs administered by Fruitland School District are funded through federal sources and are obligated to meet federal guidelines in order to qualify. If federal funds are used for an employee's salary, the employee is required to record time spent working on a federal program on their timesheet as hours worked through means of "positive time reporting". "Positive time reporting" is recording the actual time spent working on a set of activities which are applicable and allowable under the terms and conditions of the funding source.

Any vacation, sick leave, compensatory time taken, holiday pay, or other non-worked pay will be distributed according to the default index(es) assigned to the employee's position.

A quarterly review and reconciliation will be performed by Accounting to ensure time is being charged appropriately.

Employee Responsibility

Employees are responsible to correctly charge actual time worked to the appropriate funding source(s) associated with any federal programs. Employees will work with their supervisor and/or SDE Accounting staff to determine correct index(es) to use on their timesheet.

Supervisor Responsibility

Supervisors are required each pay period to verify hours were actually spent working directly on the federal or other programs, and correct index(es) were used in coding the timesheet, when they electronically sign the timesheet in the State Controller's online payroll system.

Program Coordinator/Director Responsibility

The Program Coordinator or Director will discuss program needs with their Supervisor. Coordinators/Directors will closely monitor activities, expenses and revenue of their program and report any deficiencies to their Supervisor and Accounting. It is the responsibility of the Program Coordinator/Director/or designee to inform Accounting when a funding source has been exhausted, and if a new index code needs to be established due to rollover into new fiscal year funds or the award of an entirely new federal grant.

Policy Title: **Fixed Assets and Management Discussion and Analysis** Code # 810

Purpose

The Board recognizes the need to implement the required accounting and financial reporting standards set out in Governmental Accounting Standards Board Statement 34 (“GASB 34”)

The primary objectives of implementing the GASB 34 are to assure compliance with State requirements, to properly account for both the financial and economic resources, and to provide new and additional information to users of District financial statements.

Authority

Participation and reporting shall be in accordance with Board policy, State of Idaho Fiscal Policy manuals as prepared by the office of the State of Idaho Controller’s Office, and GASB 34.

Delegation of Responsibility

The responsibility to coordinate the compilation and preparations of all information necessary to implement this policy is delegated to the Superintendent in cooperation with the District Accountant.

The designated individual shall be responsible for implementing the necessary procedures to establish and maintain a fixed asset inventory, including depreciation schedules. Depreciation shall be computed on a straight-line basis over the useful lives of the assets, using an averaging convention. Normal maintenance and repairs shall be charged to expense as incurred; major renewals and betterments that materially extend the life or increase the value of the asset shall be capitalized. A schedule of accumulated depreciation shall be consistent from year to year. The basis for depreciation, including groups of assets and useful lives, shall be in writing and submitted for review to the Board of Trustees.

The Superintendent in Cooperation with the District’s Accountant shall prepare the required Management Discussion and Analysis (MD&A). The MD&A shall be in the form required by GASB Statement 34 and shall be submitted to the Board for approval prior to publication.

Prior to submission of the MD&A for Board approval, the independent auditors shall review the MD&A, in accordance with SAS No. 52, “Required Supplementary Information.”

Guidelines

In order to associate debt with acquired assets, and to avoid net asset deficits, any asset that has been acquired with debt proceeds shall be capitalized, regardless of the cost of the asset. Any assets capitalized should be depreciated using their estimated useful life, not their amortization schedule.

For all other assets not acquired by debt proceeds, the dollar value of any single item for inclusion in the fixed assets accounts shall be not less than \$5,000.00

The capitalization threshold shall be set at a level that will capture at least eighty percent (80%) of all fixed assets.

The assets listed below do not normally individually meet capitalization threshold criteria:

1. Library books;
2. Classroom texts;
3. Computer equipment;
4. Classroom furniture;

These asset category costs shall be capitalized and depreciated as groups when that group's acquisition cost exceeds the capitalization threshold in any given fiscal year.

For group asset depreciation purposes, the estimated useful life of the group may be based on the weighted average or simple average of the useful life of individual items, or on an assessment of the life of the group as a whole. Periodically, the intermediate unit shall review the estimated life of groups of assets and adjust the remaining depreciation life of the group.

Assets that fall below the capitalization threshold for GASB 34 reporting purposes may still be significant for insurance, warranty service, and obsolescence/replacement policy tracking purposes. The intermediate unit may record and maintain these non-GASB 34 asset inventories in subsidiary ledgers.

Policy Title: **Procurement Under a Federal Award** Code # 813

In addition to its other policies and procedures regarding procurement, the District shall adhere to the following requirements when making procurements under a federal award. The District shall:

1. Ensure that all solicitations incorporate a clear and accurate description of the technical requirements for the material, product, or service to be produced, and set forth those minimum essential characteristics and standards to which the material, product, or service must conform. The District will identify all requirements which bidders must fulfill and all other factors to be used in evaluating bids or proposals.
2. Provide a written method for conducting technical evaluations of the proposals received and for selecting recipients, including factors considered for the evaluation; who performs the evaluation, the number of evaluations performed, the timeframe for conducting any evaluations, and the selection of a vendor and whether another positions reviews the evaluation.
3. Maintain oversight to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.
4. Avoid acquiring unnecessary or duplicative items;
5. Consider consolidating procurements to obtain a more economical purchase. Where appropriate, an analysis will be made of lease versus purchase alternatives and any other appropriate analysis to determine the most economical approach.
6. Maintain a list of prequalified person, firms, or products which are used in acquiring goods and services and include enough qualified sources to ensure maximum open and free competition.
7. Award contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of the proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.
8. Maintain records sufficient to detail the history of procurement. These records will include:
 - A. Rationale for the method of procurement;
 - B. Selection of contract type;
 - C. Contractor selection or rejection; and
 - D. The basis for the contract price.
9. The use of a time and materials type contract is prohibited unless the District determines that no other contract is suitable. Time and materials type contract means a contract whose cost to a District is the sum of:
 - A. The actual cost of materials; and

- B. The direct labor hours charged at an hourly rates that reflect wages, general and administrative expenses, and profit.

When this type of the contract is used, it will include a ceiling price that the contractor exceeds at his or her own risk. The District will assert a high degree of oversight over such contracts in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

- 10. Be responsible for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims.
- 11. The District will adhere to any additional procurement rules as applicable to specific federal programs such as federal child nutrition programs.

Time and Effort Documentation

Charges to federal awards for salaries and wages must be based on records that accurately reflect the work performed. Such work shall be documented on Form 7400F.

Policy Title: Travel Allowances and Expenses Code # 814

Every District employee and Board Member will be reimbursed for travel expenses while traveling outside of the District and engaged in official District business. All travel expenses must be reported on the established travel expense and voucher forms and, for employees, approval must be granted prior to traveling by the employee's supervisor and the Superintendent.

The District business office will be responsible for the development of procedures and forms to be used in connection with travel expense claims and reimbursements.

Types of Travel

In District Expenses: District employees and Board Members shall be reimbursed for actual and necessary expenses incurred within the District while attending to District business. Actual mileage driven for pre-approved in District travel shall be reimbursed. It is the responsibility of the Board to review travel within the District by the Superintendent or by Board Members.

Meals incurred inside the District shall not be reimbursed, except for banquets attended to represent the District.

Out of District Travel: Travel outside of the District must be pre-approved. Board Members shall obtain Board approval prior to incurring out of District expenses, and employees shall obtain prior approval from their supervisor and the Superintendent.

Actual monies spent for food while on out of District trips requiring an overnight stay shall be reimbursed.

District employees and Board Members shall be reimbursed for actual and necessary expenditures incurred outside the District.

Documentation of Expenses

Expenses not in compliance with this policy shall not be reimbursed or paid by the Board.

Prior to reimbursement of actual and necessary expenses, the District employee or Board Member must submit a detailed receipt indicating the date, purpose, and nature of the expense for each claim item and any appropriate travel expense or voucher form. Expenses requiring prior approval must also include a copy of the written prior approval. Employees shall submit their receipts, travel expense forms, and voucher forms to the Superintendent. The Superintendent and Board Members shall submit such documentation to the Board. Failure to provide a detailed receipt will make the expense non-reimbursable.

In exceptional circumstances, the Board may allow a claim without a proper receipt. Written documentation explaining the exceptional circumstances will be maintained as part of the District's record of the claim.

The Board directs the Superintendent to promulgate procedures specifying which expenses shall be reimbursable for travel of different distances and durations.

Travel Costs Under Federal Award

General: Travel costs are the expenses for transportation, lodging, food, and related items incurred by employees who travel on official business under a federal award. Such costs may be charged on an actual cost basis, or on a per diem mileage basis, or on a combination of the two, provided the method used is applied to an entire trip and not selected days of the trip.

Lodging and subsistence: Costs incurred by employees and officers for travel, including costs of lodging, other subsistence, and incidental expenses, shall be considered reasonable and otherwise allowable only to the extent such costs do not exceed charges normally allowed by the District in its regular operations. If these costs are charged directly to the federal award, the District will maintain documentation justifying the following:

1. Participation of the individual is necessary to the federal award; and
2. The costs are consistent with this policy and any related procedures.

Temporary dependent care costs above and beyond regular dependent care that directly results from travel to conferences are allowable provided that:

1. The costs are a direct result of the individual's travel for the federal award;
2. The costs are consistent with this policy and any related procedures; and
3. Are temporary, lasting only during the travel period.

Travel costs for dependents are unallowable, except for travel of duration of six months or more with prior approval of the federal awarding agency.

Commercial air travel: Airfare costs in excess of the basic, least expensive unrestricted accommodations class offered by commercial airlines are unallowable except when such accommodations would:

1. Require circuitous routing;
2. Require travel during unreasonable hours;
3. Excessively prolong travel;
4. Result in additional costs that would offset the transportation savings; or
5. Offer accommodations not reasonably adequate for the traveler's medical needs.

Policy Title: **Federal Cash Management** Code # 815

The District will comply with applicable methods and procedures for payment that minimize the time elapsing between the transfer of funds and disbursement by the District, in accordance with the Cash Management Improvement Act. Generally, the District receives payment from the State Department of Education on a reimbursement basis.

However, if the District receives an advance in federal grant funds, the District will remit interest earned on the advanced payment quarterly to the federal agency. The District may retain interest amounts up to \$500 per year for administrative expenses.

According to guidance from the U.S. Department of Education (USDE), when calculating the interest earned on USDE grant funds, regardless of the date of obligation, interest is calculated from the date that the federal funds are drawn down from the G5 system until the date on which those funds are disbursed by the District.

Payment Methods

1. Reimbursements: The District will initially charge federal grant expenditures to nonfederal funds.

The District Grant Accountant or Business Manager will request reimbursement for actual expenditures incurred under the federal grants monthly. All reimbursements are based on actual disbursements, not on obligations. Reimbursement requests will be submitted on a District form to the State Department of Education.

The Superintendent or his or her designee shall promulgate a procedure specifying any further requirements.

Consistent with state and federal requirements, the District will maintain source documentation supporting the federal expenditures; such as invoices, time sheets, and payroll stubs; and will make such documentation available for the State Department of Education to review upon request.

Reimbursements of actual expenditures do not require interest calculations.

2. Advances: To the extent the District receives advance payments of federal grant funds; the District will strive to expend the federal funds on allowable expenditures as expeditiously as possible. Specifically, the District shall attempt to expend all drawn downs of federal funds within 72 hours of receipt.

The District will hold federal advance payments in interest-bearing accounts, unless an allowable exception applies. The District will begin to calculate interest earned on cash balances once funds are deposited into the District's account.

Interest will be calculated quarterly. Total federal grant cash balances will be calculated on cash balances per grant and applying the District's average interest rate. Within 30 days of the end of the quarter, the District will remit interest earned. The District may retain up to \$500 of interest earned per year.

The Superintendent or his or her designee shall promulgate a procedure specifying the process for remitting interest.

Policy Title School District/Community Sportsmanship Code No. 1007

The Fruitland schools have the reputation of maintaining a strong activity program that promotes sportsmanship, respect for others and good relations among the students, staff and the community. Over the past several years the relationships between the fans and athletes of Fruitland and their opponents have been one of rivalry during the game and friendship afterwards. This is just one of the positive aspects of high school competitive events.

Recently, there have been several situations that indicate an escalation of hostile, negative attitudes that can no longer be tolerated. Patrons and students are responsible for their actions and should foster the positive side of high school activities. ***To do anything less sends the wrong message to the very students that we expect to be positive role models in the future.*** We expect students and adults to display good behavior and attitudes at all activities.

Because of these conditions, the Fruitland School Board therefore resolves:

That, the administration of Fruitland School District #373 is authorized and directed to remove from any activity, any person or persons whose behavior causes a serious disruption or breach of peace, whether at home or at an away activity. Such individuals will be asked to leave, and if necessary, the administration in charge are authorized to obtain the assistance of law enforcement officials.

1. Never boos a player or official.
2. Appreciates a good play, no matter who makes it.
3. Exercises self-control and displays good judgment in every action.
4. Gains an understanding and appreciation for the rules of the contest.

The Player. . .

1. Lives clean and plays hard. Plays for the love of the game.
2. Wins without boasting, loses without excuses and never quits.
3. Respects officials and accepts their decisions without question.
4. Never forgets that they represent their school.

The Coach. . .

1. Inspires in athletes a love for the game and the desire to win.
2. Teaches them that it is better to lose fairly than to win unfairly.

3. Leads players and spectators to respect officials by setting them a good example.
4. Demonstrates the principles of integrity and dignity of the sport at all times.

In order to promote and recognize sportsmanship, the Fruitland School District is supporting the state wide effort sponsored by the Idaho High School Activities Association to encourage sportsmanship. At the conclusion of each basketball season awards will be given to spectators from each school who has exemplified good sportsmanship.

Please join us as we teach our youth the benefits of sportsmanship.

Policy Title Charter School Policy Code No. 1009

Charter Schools

A charter school is a public, non-religious, publicly funded school which is accountable for the provisions set forth in its charter petition and its contract as negotiated by the District. The charter school shall operate independently within the boundaries of the District, and it shall be responsible for its own operation including, but not limited to, personnel matters, preparation of a budget, and contracted services.

A charter school may be formed by creating a new school or converting an existing public school to charter status. The District cannot authorize the conversion of any private or parochial school to a charter school. A charter school cannot be operated for profit.

A charter school shall be subject to all federal and state laws including, but not limited to, laws concerning discrimination on the basis of race, color, sex, religion, age, birth, ancestry, national origin, family relationship, personal or political patronage, or handicap. A charter school is exempt from the rules of the State Board of Education and the State Superintendent of Public Instruction, except for the issue of teacher certification.

Involvement with the charter school by any student, parent/guardian, or employee must be voluntary. Enrollment must be open to any student who resides within the District. Nonresident students may be admitted to a charter school, but priority must be given to admission of resident students. A charter school shall not charge tuition or fees except those fees normally charged by other public schools.

A charter school must accomplish all of the following:

1. improve student learning;
2. include the use of different and innovative teaching methods;
3. create new professional opportunities for teachers, including the opportunity to be responsible for the learning program at the school site;
4. provide parents and students with expanded choices in the types of educational opportunities that are available within the public school system;
5. be accountable for meeting measurable student educational standards.

District Liability

Idaho law provides that the Board and the District have no liability for the acts, omissions, debts or other obligations of a charter district, except as may be provided in an agreement or contract between the District and a charter school. The charter school shall defend, hold harmless and indemnify the Board against any claim, action, loss, damage, injury liability, cost or expense of any kind or nature, including, but not limited to, attorney's fees and court costs, arising out of the operation of the charter school and/or arising out of the acts of omissions of the agents, employees, invitees or contractors of the charter school. The charter school also shall maintain a policy of general liability insurance, errors and omissions insurance and any other type of insurance necessary to provide coverage for the potential losses described in this paragraph, which policy shall list the Fruitland School District #373 as an additional insured.

The policy of insurance shall have limits of liability of not less than \$3 million per person and \$3 million per occurrence. The charter school shall provide to the District proof of such insurance prior to the opening of the charter school and by the date stipulated in the contract.

Each charter school shall:

1. be organized and managed under the Idaho nonprofit corporation act;
2. have a board of directors to act as public agents to control the charter school and have the same responsibilities and liability as any governing board of public education;
3. be considered a public school for all purposes.

Limits to Authorization

Except in cases where fewer than twelve (12) charters are approved by October 1 of a year,

1. not more than one (1) charter may be granted in the District for any one (1) school year;
2. not more than two (2) charters per school year may be approved for the educational region of the District.

Time Line for Establishing a Charter School

The Board will only accept charter school petitions during one period each year. The Superintendent or designee shall determine dates for:

1. advertising the submission of statement(s) of intent;
2. the submission of petition(s);
3. the public meeting for the purposes of considering the merits of the petition(s) and the level of employee and parental support for the petition;
4. the deadline for the Board to make a decision concerning the petition(s);
5. the deadline for extensions of the petition process, if applicable;
6. the deadline for the contract to be signed.

Technical Assistance for Preparation of a Charter School Petition

A statement of intent should be submitted by the potential charter school group to the District at least one month prior to the petition deadline.

The Superintendent or designee may provide technical assistance for a charter school applicant over issues of compliance with District policy and procedure. The assistance from the District should be consistent with the assistance provided to other charter school applicants and should be within the limits of District resources.

Petition Requirements

State law requires that the Board can only consider a petition:

1. if the petition to convert an existing school, has signatures from not less than 60% of certificated personnel currently assigned to that school and from parents/guardians of not less than 60% of the students currently attending that school;
2. if the petition to use a nonpublic school facility has been signed by not less than thirty (30) qualified electors of the District.

Charter school applicants must submit the District's Charter School Petition Application during the filing period. Applicants who fail to submit a petition by the deadline shall automatically be denied the opportunity to establish a charter school for the school year specified in the petition application.

Criteria for Approving a Petition

The Board may approve a charter school petition if the petition:

1. appears to have sufficient support from District parents/guardians, teachers, patrons, and students;
2. has the elements of a sound plan for the charter school's educational philosophy and mission, board of directors, instruction, students, community relations, personnel, administration, financial management, non-instructional operations, school facilities, and relations with the District;
3. has a reasonable plan for procuring the required material resources;
4. has the human resources necessary to implement the proposal;
5. has a stable governance structure with competent, ethical leadership;
6. admits the liability of the charter school board of directors and shows proof of liability insurance coverage or eligibility for the coverage;
7. offers a choice which is not available in any of the schools in the District;
8. is submitted in accordance with District policies and procedures on charter schools;
9. meets all of the requirements of the law.

The Board may choose to interview key members of the charter school team prior to making a decision on the petition. The interview will be open to the public. The Board, Superintendent or designee may also choose to visit the charter school facility. If a site has not been identified at that time, the Board, Superintendent or designee reserves the right to visit the facility at a later date.

Board acceptance of the petition shall be contingent on the approval of the petition by the State Board of Education and on the signing of a contract by both the Board and the board of directors of the charter school. Both parties must sign a contract within eight (8) months from the granting of a petition or the petition shall be null and void. A charter school shall begin in the fall immediately following the signing of the contract, unless otherwise stated in the contract.

Charter School Appeal Process

If the Board grants a charter for the conversion of an existing school within the District over the objection of thirty (30) or more persons or employees of the District, or denies a petition for the establishment of a new charter school for any reason including, but not limited to, failure by the petitioner to follow procedures or for failure to provide required information, then such decisions may be appealed to the State Superintendent of Public Instruction, at the request of persons opposing the conversion of an existing school, or at the request of the petitioner whose request for a new charter was denied.

There shall be no appeal of a decision by the Board which denies the conversion of an existing school within the District to a charter school, or which grants a petition for the establishment of a new charter school.

Development of a Charter School Contract

The Board delegates to the Superintendent or designee the development of a charter school contract through negotiations with the representative(s) of the applicant. The negotiated contract requires the approval of the Board and of the charter school's board of directors.

A Board contract with a charter school shall include, but not be limited to:

1. the length of the contract;
2. the original petition and any subsequent changes or revisions agreed upon by both parties;
3. all agreements including, but not limited to, service contracts and the release of the charter school from specified Board policies;
4. detailed plans for the charter school's educational philosophy and mission, board of directors, instruction, students, community relations, personnel, administration, financial management, non-instructional operations, school facilities, and relations with the District, and any other information required by District policies and procedures on charter schools;
5. documentation of the charter school's insurance coverage, including health, automobile liability for student transportation, general liability, property, officer and employee liability which shall be provided to the District prior to the opening of the school and annually for the duration of the contract;
6. complete documentation of ownership or lease of a facility, and of certification, that the building satisfies all requirements for fire, safety, and accessibility for the disabled prior to the opening of the charter school and by the date stipulated in the contract;
7. a copy of the charter school's incorporation documents, bylaws, contracts, and any other documents;
8. the requirement that the District be named as a lien holder on any of the real or personal property of the charter school's nonprofit corporation.

Use of District Services and/or Facilities

A charter School may contract with District to provide services or facilities to the charter school. The District will charge for the services or facilities at a rate which is stipulated in the contract.

If the charter school will use a District facility, the contract will:

1. identify the facility;
2. outline the permissible use;
3. provide for joint inspection and notation of the initial condition of the building;
4. limit the permissible alterations of the facility;
5. allow District inspection of the facility;
6. determine the operational costs to be paid by the parties, including, but not limited to, utilities, maintenance and custodial services;
7. determine the manner in which the building must be restored to its original condition at the end of the leasing period;
8. provide for alternative arrangements or termination of the charter school in the event the facility is damaged or destroyed.

Personnel

1. Charter school employees are not employees of the District.
2. The staff of the charter school shall not be a part of the District's employees collective bargaining unit.
3. Should the staff of the charter school elect to participate in collective bargaining, they will be separate and independent from the District for purposes of collective bargaining.
4. A District certificated employee who leaves the District for employment at a charter school, but requests to be reemployed by the District within two (2) years of the date that

- he/she was last employed by the District shall be provided, if appropriate, with a position similar to the one held prior to leaving the District.
5. A charter school certificated employee who requests to be reemployed by the District after two (2) years, but within (5) years, of the date that he/she was last employed by the District, shall be placed on manifests, as appropriate in compliance with District policies and procedures, and as a part of the District's process for new employees if the employee is seeking an assignment in the same area of certification as when he/she was formerly employed by the District and if the employee provides the District with the following information: an updated transcript and resume, a recommendation and/or evaluations from the charter school, and an indication of his/her preferences for assignment(s), grade(s), or subject(s).
 6. A charter school certificated employee who requests to be reemployed by the District after two (2) years of the date that he/she was last employed by the District and who is seeking an assignment in a different area of certification as when he/she was formerly employed by the district must apply through the District's equal opportunity employment procedures.
 7. A charter school certificated employee who requests to be reemployed by the District after five (5) years of the date that he/she was last employed by the District must apply through the District's equal opportunity employment procedures.
 8. A charter school certificated staff member who has never been employed by the District and who wishes to be employed by the District, must apply through the District's equal opportunity employment procedures.
 9. Return of former District employees to the District during an academic year shall be at the sole discretion of the District.
 10. Certificated teachers who are hired by the District from a charter school shall have their charter school experience count on the salary schedule the same as the certificated employees hired from other school districts.
 11. Charter school certificated employees who are reemployed by the District shall receive full credit for their years of service in the District.
 12. The board of directors for the charter school shall provide coverage for their employees with the public employee retirement system, federal social security, unemployment insurance and worker's compensation insurance.

Evaluation of the Charter School

The Board shall retain the right to evaluate at any time the degree to which the charter school is meeting the terms of the contract. The Superintendent or designee may have a District representative or an independent evaluator:

1. visit the charter school;
2. review the charter school's records and data;
3. directly survey the charter school's parents/guardians, students, employees;
4. audit the books of the charter school;
5. pursue any other reasonable means of determining accountability for the charter school contract.

To enact any of the above measures, the Superintendent or designee must state the specific nature of the concern and the concern must be substantial. The request must be reasonable in terms of the timing and the amount or types of information required.

Annual Report and Renewal of Charter Contract

Each of the district's charter schools shall annually submit a report to the District. The report shall include an audit of financial operations conducted by an independent auditing firm and an audit of the charter school's programmatic operations, which includes a report on student progress as outlined in the school's contract.

The Board may grant a renewal of the contract for one (1) or more subsequent years. No renewal shall exceed five (5) years. A material revision of the terms of the charter school contract requires the approval of the Board and the charter school's board of directors.

Termination and Nonrenewal

The Board may terminate the contract during the term of the charter or refuse to renew the charter if the Board finds that the charter school has:

1. failed to substantially meet one or more of the student educational standards identified in the charter contract; or

Except in emergency situations, the Board will provide thirty (30) days written, prior notice and an opportunity for the charter school's board of directors to be heard by the Board before the Board can terminate a charter school contract. A decision to terminate or not to renew a charter may be appealed directly to the State Board of Education.

Upon renewal or termination of the charter school contract, all records of students residing in the District shall be immediately transferred to the District

GRIEVANCE PROCEDURE

(Title IX Discrimination)

Series 1100

Policy Title Grievance Procedure (Title IX Discrimination) Code No. 1100

This procedure is to allow students, parents and teachers and other district employees a fair means through which to seek local administrative redress for alleged violations, misinterpretations, or inequitable applications of school district policies and practices relative to provisions of federal anti-discrimination legislation.

Parties who feel themselves aggrieved are urged to first make a good faith effort to correct the situation through negotiating with the persons involved, or with their immediate supervisor. No provision of the formal grievance procedure shall be construed to limit in any way the ability of the grievant and the district to mutually and informally resolve the grievance at any stage of the process.

A Formal Grievance is a written complaint which:

- (1) Sets forth the allegation that there has been a violation, misinterpretation or inequitable application of any district policy or practice relative to federal anti-discrimination legislation.
- (2) Specifically identifies the policy or statute violated, misinterpreted or inequitably applied.
- (3) Furnishes sufficient background concerning the alleged violations that led to the allegation.
- (4) Specifies what action by the district would constitute a redress or resolution of the grievance.

Provisions:

A grievance must be filed within 30 calendar days of the date the grievant knew or could reasonably have been expected to know of the circumstances which occasioned the grievance.

No person shall suffer recrimination or discrimination because of participation in this grievance procedure. Recrimination is itself a grievous offense under the equal opportunity statutes.

No record of participation in grievance proceedings shall be included in personnel or educational files without the concerned individual's written permission.

The grievant shall have the right to be represented at any stage by counsel or another agent of his/her choice, and shall have the right to call witnesses and present such evidence or testimony as he/she sees necessary for a fair presentation of his/her complaint.

Whenever possible, hearings shall be scheduled during a mutually convenient time that does not conflict with school programs.

Employees or students shall be free to testify regarding any grievance filed. The expense of necessary and approved release time for employees shall be borne by the school district. Students will be allowed a reasonable time to make up class work missed because of their necessary attendance at hearings scheduled during the school day.

Confidentiality will be observed pending resolution of the grievance or final decision by the Board.

The grievant is encouraged but not required to follow this grievance procedure.

Procedure:

Step I

1. The grievant shall prepare and file a formal grievance with the compliance officer.
2. The compliance officer shall investigate the complaint and shall issue to the grievant and the appropriate administrative officer within 10 working days following the filing of the grievance a written report setting forth his/her findings and recommendations for the resolution of the grievance.
3. The grievant and the administrator shall have five working days after receipt of the report to accept or reject its recommendations.
4. The grievance shall be considered resolved if the grievant and the administrator accept the recommendations of the compliance officer or if the grievant fails to file the grievance at Step II within the time limits.
5. If no written report has been issued within the specified time limit, or if the grievant or administrator shall reject the recommendations of the compliance officer, or if the district fails within ten days after having accepted the recommendation to furnish conclusive evidence of its intent to act on the recommendations, the grievant shall be free to file the grievance at Step II.

Step II

1. Within ten days following the conditions set forth in Step I, the grievant shall file with the School Board a written request for a hearing of the grievance.
2. Upon receipt of written request for a hearing, the Board shall set a date for said hearing, mutually acceptable to the grievant and the district, but at a time no later than 15 calendar days from the filing of the request. The hearing will be public unless the grievant requests in writing that the hearing be held in executive session.

3. Both parties at the hearing will have the right to be represented by counsel or other designated agents, to call and cross examine witnesses and to present written testimony or other evidence to support their cases.
4. Within ten days after the close of the hearing, the Board shall issue its decision and its charge to the administrator for the resolution of the grievance. The grievance shall be considered resolved if the Board's recommendations are accepted by the grievant.
5. Expenses incident to the hearing will be borne by the district, not to include the grievant's legal fees.

In the event that the grievance remains unsolved at the termination of the grievance procedure, the grievant is free to pursue such litigation or statutory remedy as the law may provide.

The agencies listed below receive discrimination complaints whether or not the local grievance procedure has been used.
